Performance & Finance Review

Performance

Report

Quarter 1 2012-13

This report is designed to supplement the covering Performance & Finance Review report. It summarizes the Council's key performance indicators for the current reporting period.

Produced by: Strategy, Partnerships & Improvement and Finance & Corporate Services

How to interpret this report

This report is designed to supplement the covering Performance & Finance Review report and includes a much wider suite of performance indicators. It summarizes performance information in relation to the Health & Wellbeing Strategy and other strategies which collectively enable the Council to deliver Brent's Borough Plan.

The indicators contained in this report are those which are considered essential at the current time, given the pressures which the Council faces, and are reported on a quarterly basis. The Council also has a suite of annual performance indicators which are reported on an annual basis.

Performance information is assessed using the following symbols:

	If performance is below target.
	If performance is below the level of expected performance but is within tolerance of the target.
	If performance is as expected and the target has been met or exceeded.
	If performance cannot be fairly measured against a target (i.e. where the service can have no direct influence over its performance) then the indicator is marked as indicative only.

Finance information is assessed using the following symbols:

	If there is an overspend on the budget of more than £50k or more than 5% of the budget.
	If there is an overspend on the budget of up to £50k or less than 5% of the budget.
	If the budget is underspent or at breakeven. Or additionally, for capital budgets where increased expenditure is matched by an equivalent sum of additional funding. In these cases the capital programme remains in balance and no further action is required.
	If there has been slippage in the Capital Programme with expenditure being re-phased to future years.

Comments

- NI 114 Rate of permanent exclusions: It needs to be borne in mind that this target represents a **cumulative** figure, and although the position might be closer to 0.5 in any one quarter, the final figure will be nearer 1.0. Please note this is based on academic year not financial year.
- NI 117 (NEETs): The target is an annual target, measured as an average over 3 key months November 2011 to January 2012, and hence performance measured over same time period. However the quarterly figure provided is an estimated figure for 30 June 2012.
- Looked After Children (LACs): These figures are based on rolling three year averages as per the DfE recently published adoptions scorecard.

Comments

- NI 191, NI 192 and Tonnes of Waste Land Filled: reported a quarter in arrears
- Flytipping indicators: New Local indicators.
- Number of library visits per 1000 population: Target revised upwards from that originally quoted, to reflect the fact that Willesden Green will not close for refurbishment in September 2012 as originally planned.
- Active library borrowers as a percentage of population: The definition of this indicator has been revised. Previously this indicator showed the figure from April 1st to date, however it now shows the figure for the last twelve months (i.e. from 1st July 2011 to 30th June 2012). This will make it easier to compare performance on a rolling quarterly basis.
- Complaints: The highest complaint areas were Recycling & Waste and Safer Streets with 48 complaints each. Within these, the two highest areas overall were Refuse collection (36) and Parking enforcement (29).

Comments

- NI 154 Net additional homes provided: As the figure for Quarter 1 2012/13 requires a full survey of all housing permissions, the Mayor of London allows 4 months for the return to be made. It is unlikely that there will be a definitive figure until the end of July; however a preliminary figure can be sought in time for Q2.
- Proportion of residents with no qualifications: Please note the number of Brent residents with 'other qualifications' which includes those not officially recognised within the UK is 38.5% compared to London's 13.8%.
- Percentage of empty commercial properties in the borough: This indicator has been developed to monitor the health of business within the borough. Total no of commercial properties: 8257 (up by 16 units from Q4), Occupied: 7034 (up by 31 units from Q3), Empty: 1238 (down by 15 since Q4). Statistics provided by Business Rates.
- Complaints: BHP will be moving to the 2 stage process in Q2

Comments

Residential Burglary: the Metropolitan Police Service have reported an error in the 2011/12 outturn figure for number of burglaries in some boroughs including Brent. The revised figures are reflected above.

While in the case of our borough the final number for the financial year is substantially reduced, because of how the error came about this does not affect the percentage rise over that year. Given this reported error all figures are being verified by the Metropolitan Police and the Council prior to next reporting point to ensure the validity of the data.

Key Financial Risks

Adult Social Services Revenue

The current forecast is an overspend of £950k overspend due to shortfalls in transitions growth over the last two financial years. Work is on going to reduce this with compensating underspends in other areas of the budget.

Adult Social Services Capital

All the variances between budget and forecast reflect slippage between 2011-12 and 2012-13.

Key Financial Risks

Children and Families Revenue

Children & Families are currently forecasting an overspend of £874k. There is a current Social Care overspend of £905k, placement pressures from 2011/12 have continued into 2012/13:

- The spending pressure primarily relates to having to place a number of new Looked After Children (LACs) with relatively complex needs in more expensive provision. For example 1 recent new additional residential school placement is costing an additional £180k per annum.
- Similarly the number placed with Independent Fostering Agencies has been above target for the first quarter although the latest position for June has moved to being on target.
- Measures to ensure the needs of clients are met in the best way while at the same time ensuring the placements represent the best value for money continue to keep control of expenditure. Some initial savings arising from the WLA Children's Efficiency Project have been fed into these current projections and as further negotiations with providers are concluded to achieve reduced charges these will also be fed into future monitoring reports.
- In addition, savings from across Children and Families are being identified to reduce the forecast overspend as far as is possible and will be fed into the departmental monitoring position once they are more firmly identified.
- Within Achievement and Inclusion there are spending pressures on the Pupil Parent Services due to the lack of school places and increasing number of pupils coming into the borough. This has been partly offset by £300k from the closure of one of the Pupil Referral Units.

The schools budget is currently forecasting an overspend of £952k mainly on SEN. Expenditure

continues to cause budget pressures, which is a continuation of pressures from 2011/12 and previous years. Through the SEN One Council Project a great deal is being done to control future commitments, however the financial impact of this will take some time to feed through into reduced expenditure due to a large element of expenditure being linked to historic statements. The current forecast is also subject to further review once the final Dedicated Schools Grant allocation for 2012/13 has been announced by the DfE and a firmer forecast should be available at that point.

Key Financial Risks

Environment and Neighbourhood Services Revenue

The quarter 1 position is for break-even on the forecast for 2012/13. There is a risk around the recycling and waste savings of £1.4m for 2012/13 as this is dependent in the reduction of waste tonnages. The department is seeking to contain the pressure within its cash limit but this may not be possible if waste tonnages do not reduce.

Key Financial Risks

Regeneration and Major Projects Revenue

The main pressure within Regeneration and Major Projects relates to the housing benefit scheme changes resulting from the introduction of the Local Housing Allowance caps in April 2011. Temporary Accommodation includes growth of £1.134m in order to assist in managing the cost pressures and increased service demand.

Key Financial Risks

Central Services Revenue

There is currently a breakeven forecast for central services . The main issues include:

- Pressure on Legal and Procurement from legal disbursements offset by potential savings from the Legal Services Review and additional external income.
- For Finance & Corporate Services there are additional costs of £240k from extending the payroll contract offset by additional income from schools.
