

I strongly object to this application - [REDACTED] This is a residential area and the pub already regularly holds parties and discos on Fridays and Saturday nights which go on up to 2am the next morning. I am usually unable to sleep until 2am during the pub's party nights and have often called the pub at 2am in the morning to remind them of their licence obligations. In other words, the pub already pays little heed to existing licensing obligations. I can also hear screaming rows and fighting between pub users in the smoking corridor adjacent to our property late into the night. Extending the pub's licence to midnight and/or extending the existing hours of serving alcohol at weekends will be of great detriment to local peoples' lives. Brent Council should reject this application and instead make more effort to ensure that the pub does not continue to infringe its existing licensing restrictions.
