

07-07-2019

Dear Sir/Madam, We are living [REDACTED] and as a family with young children have material concerns with the licensing of the pub and issue our objection to the application based on the following:

- Crime: there is substance abuse and drug use occurring outside and adjacent to the premises evidenced by drug paraphernalia (small gas canisters) and the smell of cannabis. This occurs mostly in the weekend.
- Crime: there have been a number of fights breaking out outside the premise late at night, at times with police present.
- Public nuisance: regularly there is loud arguments outside our front door. And often drunk people speak on the phone with very foul language, which our children inside our homes are exposed to, which is very unpleasant.
- Public nuisance: noise levels from inside the pub (music), outside the pub garden (music and people), and from the people leaving the pub are too high.
- Public safety: cars are parked illegally in ways that make it unsafe to cross the road due to limited visibility of traffic, particularly for children. Also, the pavement is blocked as a result of this parking. Furthermore, several times access to our driveway was blocked.
- Public safety: I don't understand how the public footpath/ pavement effectively stops at the pub. With a full pub car park one has to walk on the street to get around. From my experience [REDACTED] to the requesting premises, by issuing the requested licence the council will undermine the prevention of crime and disorder, public safety, the prevention of public nuisance, the protection of children from harm.

[REDACTED]
