Subj: Premises Licence Application 1486598 GLADSTONE PARK

Dear Sir/Madam,

I am writing to express my total opposition to a permanent music and alcohol licence in Gladstone Park. We have enough public nuisance with drunken people in this area to have to put up with more. My children, unfortunately, have witnessed many incidents involving drunken behavior including men urinating in the streets. I want to be able to go to the park and enjoy our time there without having to worry about seeing any antisocial behaviour. More over we can hear the music from our house during the Gladstonbury Festival so I will hear it too in the other occasions.

I hope Brent listens to the residents concerns and does not grant a permanent music and alcohol licence in Gladstone Park,

Yours sincerely,

Lo, Wai-yee

Subject: Gladstone Park Events Licensing Application Ref 1486598

Dear Sir / Madam,

I am contacting you to register an objection to the above mentioned licensing application. My objections are as follows:

The application is very vague and seems to be asking for 'carte blanche' to run an unlimited number of events in Gladstone Park at any time. This is an extremely distressing proposal for those of us who live in proximity to the park with the strong possibility of noise, nuisance and continual harassment to local residents.

The proposal to run events until after 1.00am is completely unacceptable in a quiet suburban neighbourhood. As far as I am aware even Hyde Park has to switch off at 10.30pm.

There is no indication of the scale of the events. How many people are likely to attend? The prospect of thousands of people descending on this tranquil area every weekend is horrifying.

Local roads would become clogged with parked cars and the scant public transport around the park would be ill-suited to cope with potential numbers.

There would a huge demand on the local police and emergency services.

There is a strong possibility of mess, bottles and possibly worse items being left in the park for families with children to come across the following day.

The park is an extremely popular area, most especially for families and people participating in sports. It is also a haven for local wildlife. Large areas of this peaceful and tranquil environment could be permanently disrupted by the construction of the temporary structures and toilets that such events would require.

I hope that you will see fit to refuse such an unsuitable application.

Yours Faithfully
