

**Briefing Note for the Forward Plan Select Committee on 25 March 2010**

**SERVICE AREA:** Environment and Culture

**Report Title:-**

**CCTV Enforcement of Moving Traffic and Parking Contravention**

The report on Enforcement of Moving Traffic and Parking Contravention by means of CCTV cameras has been deferred to the first Executive and Full Council meeting in the new municipal year.

The report was discussed at the Leaders' Briefing and Members have requested further information on the configuration and enforcement of yellow box junctions, and on how enforcement will reduce congestion.

The report was due to be considered at the Executive in March / April, but it recommends that the matter is referred to Council but there is no Council meeting from now until after the Local Elections. It is therefore logical for the new Administration's Executive to recommend any proposal to Council.
