#### 1. Background and context

- 1.1. On 9<sup>th</sup> September 2013 the council set out proposals to restructure its alternative education, behaviour, attendance and looked after children education services within the Education, Health and Social Care Department. The proposals aim to deliver performance improvements and respond to a complex range of policy, financial and operational challenges. The initial proposals are set out in the consultation document: <u>AE Behaviour and Attendance Services Consultation Document Final Draftv1.pdf.</u>
- 1.2. This report now outlines the feedback received during the consultation and sets out the management team's response. It also confirms the final decisions on the new structure and the next steps for implementation, including the indicative time-table for interviews of those post holders subject to ring-fenced interviews. The document does not cover issues raised during the consultation which related to individual circumstances in such cases, responses have been provided to the staff members and will not be reflected in this document.
- 1.3. A range of consultation methods have been used to communicate proposed changes:
- All staff affected by the proposals and relevant trade union representatives were asked to return comments on the consultation document by 8<sup>th</sup> October 2013;
- An all staff group session was held on 17<sup>th</sup> September 2013 to explain the rationale for the new structure and give staff the opportunity to raise issues and concerns. A management response to the issues raised at his meeting was subsequently circulated to all staff and trade union representatives;
- Further opportunities for discussion have been provided to staff through meetings with trade union representatives, team meetings and 121 meetings with the Head of Service; and
- Staff were offered opportunities to meet with a human resources advisor to raise individual concerns.
- 1.4. Applications for voluntary redundancy were invited in the initial consultation document. Sixteen applications were received and all applicants were offered voluntary redundancy, with staff asked to formally accept/ reject their offer by noon on 24<sup>th</sup> October 2013. This will impact on ring-fencing and assimilation arrangements for some posts as currently set out in the matching table at Appendix Five for example, if some staff accept their VR offer remaining staff may in some cases be directly assimilated into the available post(s).
- 1.5. The final proposals outlined in section three of this report will now be implemented, with interviews for any ring-fenced staff taking place in November 2013. The new Inclusion and Alternative Education Service will go live in January 2014, supported by the transitional arrangements detailed in section two.

## 2. Comments and responses in relation to issues raised

2.1. This section includes details of alternative proposals and other issues raised during the consultation process. As indicated above, it does not deal with issues related to individual circumstances where responses have been provide directly to staff. General issues related to assimilation and ring-fencing are dealt with in section five of this response.

#### Role and Structure of the Looked After Children (LAC) Education Team/Virtual School

- 2.2. Respondents raised a range of concerns about the proposed changes to the LAC Education Team. While the creation of the LAC Information Analyst post was welcomed, there were concerns that the reduction in the number of LAC advisory teachers would reduce the quality of support for LAC, impact negatively on attainment/outcomes, and make it harder for the team to support out of borough LAC effectively and to fulfil its statutory role. There were also concerns about the proposed job descriptions for the LAC Advisory Teachers and LAC Information Analyst, and the proposed pay grades for the advisory teachers.
- 2.3. Managers have considered the points raised by the LAC Education Team/Virtual School carefully, including data on the outcomes that have been achieved to date. However, we still contend that the proposed structure will better meet the often complex needs of LAC and ensure that the focus on improving educational outcomes is strengthened. In terms of overall team capacity and support for LAC, the new service structure provides additional support which we believe will strengthen the overall approach in a number of ways. For example:
  - Designation the overall Head of Service as the Virtual Head of the School will increase
    the status of the team and enhance senior management capacity, ensuring more
    organisational focus on the corporate parenting role;
  - The creation of the new SEBD Casework Officer will have a specific role in supporting LAC with SEN (roughly 30 per cent of the overall cohort), helping to ensure that they get appropriate school places (and any wider specialist support);
  - The new Inclusion Support Team will ensure that the LAC cohort benefits from a wider range of specialist report than educational professionals can offer, including access to appropriate mental health and therapeutic interventions; and
  - The creation of the new LAC Information Analyst post will ensure that management information is strengthened and help to free up existing management capacity in the service.
- 2.4. Research on best practice in this area has confirmed that there are different ways of managing LAC Education Teams/Virtual Schools and that the casework approach and/or a staffing complement comprised solely of teachers is not necessarily the best way to achieve successful outcomes. For example, OFSTED has suggested that smaller teams, and those with a wider range of skills and professional backgrounds, can be equally (and in some cases more) effective; what is critical is the ability to forge effective working relationships with a wide range of professionals, to monitor the educational progress of children closely; and to target support and resources appropriately.
- 2.5. We do not accept that the new arrangements mean that the team will focus on crisis management and fire-fighting; instead, improved monitoring and information systems, a wider range of specialist support to call upon, and an enhanced focus on supporting the wider professional community who work with LAC, should allow resources to be planned and targeted more effectively. Equally, we do not expect the new model to result in a reduction in out of school support for children, with continuing capacity to flex teachers working hours over the holiday periods. There will still be capacity for teachers and managers to develop key stage cohort specialisms (though some may have to cover more than one key stage).
- 2.6. The need to ensure effective support for out of borough children is recognised and has been considered in developing the new model. However, we believe that the best way to support out of borough children is through strong relationships with professionals in the receiving area, since they are usually better placed to build one-to-one relationships with the young person and coordinate local resources.

Alternative Education, Behaviour and Attendance Services – Response To Consultation Version: 1 Issued: October 2013

- 2.7. We have considered the proposed changes to the job descriptions for the LAC Advisory Teachers and LAC Information Analyst and agree that the amendments strengthen understanding of their roles and responsibilities. These changes have now been incorporated in the revised job descriptions for these roles (see Appendix 4).
- 2.8. We have considered the points raised about the remuneration of the LAC Advisory Teachers and consider that, given the advisory nature of the work, they should receive a teaching and learning responsibility payment to reflect the nature of their work (see further details at paragraphs 2.23 to 2.26).

#### Role of educational psychologist attached to the LAC Team

- 2.9. Respondents raised concerns about the future role of the educational psychologist (EP) who currently has a specific role in terms of supporting looked after children, with the Council funding a 0.6 FTE EP post to undertake this work. Benefits of this post were cited as including positive outcomes for LAC, ease of access to a specialist service and effective risk management.
- 2.10. In response, we can confirm that the post, which is part of the Council's Education Psychology Team establishment, will continue to be funded, with the budget for the post to be transferred to the Inclusion Support Team. However, there will be a formal service level agreement with the EP service to more clearly define the role and expected contribution of the post. In the longer-term management arrangements may be subject to change as part of the wider review of the Council's EP service that is currently underway.

#### Management and support arrangements for health needs education service (HNES)

- 2.11. Respondents raised a number of issues about the proposals for the health needs education service. These focussed on the adequacy of leadership/management support, the grading of leadership posts, the ability to deliver the service within proposed staffing resources, and future accommodation arrangements.
- 2.12. In response to concerns about the management structure, we have decided to make deputising arrangements within the service more robust, with the proposed Coordinator post formally retitled as Deputy Head (with the proposed Team Leader also been re-designated as Head of the Health Needs Education Team). These changes also take account of issues raised around parity with the HNES and the KS3/4 PRU management structures. The Head of Team will now be on L14 18 and the new Deputy Head post will be on L9-13. This brings the leadership arrangements in HNES in line with those of the KS 3 and KS 4 Centres.
- 2.13. The new arrangements should create sufficient capacity within the Team for robust leadership and management and ensure that the Team has a suitably senior post to deputise for the Head when required. The Inclusion and Alternative Education Service senior management structure also includes a new Head of EOTAS post and this post holder directly manages the Head of HNES. This will increase the overall leadership and management capacity of the team.

- 2.14. Concerns that the level of children and young people that would be educated by HNES would be too high for the proposed levels of staffing are not considered to merit further staffing changes. The proposed staffing structure was not devised on the basis of the old BETS model where multiple categories of complex needs were referred to the service, but on the model proposed in the Health Education Needs Policy, where the only criteria for access to the Team is for pupils with significant health needs and who are still on the roll of their home school. Under this model, the home school will maintain responsibility for oversight and monitoring of the education for their pupil whilst out of school and will have to work closely with HNES to provide this. Much of the work described in the consultation response, such as CAFS/ PEPS /delivery of reintegration programmes, and SEN, will remain the responsibility of the home school.
- 2.15. Operating arrangements within the HNES will also be different to those for BETs. Neither pupils in HNES nor in the KS3 PRU are expected to be attending the centres long term. The KS3 PRU will provide short term intervention for pupils and therefore, like the health needs team, will have higher volume of pupils, depending on referrals, but for shorter periods. It may be that each member of the new HNES will have a responsibility as the key worker for a number of students and will be the pastoral lead and contact with the home school.
- 2.16. Changes have been made to the administrative officer job descriptions across the service as resources to support examinations were identified as a gap by respondents. Integration of the examinations officer role into all of three administrative roles will help to ensure effective cover in case of staff absence. The revised job description was re-evaluated following inclusion of the exams role and remain at the SO1 grade.
- 2.17. No decision has been made yet about the location for the Inclusion Support Team. If the new team were to be located at Ashley Gardens this would only be after the usual health and safety assessments had been carried out, with any necessary adaptations made to the building.

#### TaMHS Project – targeted mental health support in schools

- 2.18. The TaMHS Project Steering Group/ Project Manager requested that the proposal for the Inclusion Support Team and its relationship with the TAHMS project be reviewed, with further consideration given to funding the TaMHS project as part of the clinical support services commission by the IST. The response suggested that there was an overlap between the two services and that a combined approach would make better use of resources.
- 2.19. In response, we do not accept that the alternative proposal could deliver the objectives of the new service. The consultation document proposes to locate the TAMHS project within the new Inclusion and Alternative Education Service because there is some benefit for both the project and the new Service in having closer working links. However, the service offered by TaMHS and the Inclusion Support Service are complementary but significantly different, and there is no suggestion that the clinical service team and the TaHMS clinical team would be 'joined up'.

- 2.20. Funding for the new Inclusion Support Team is from the Delegated Schools Budget and the team are expected to serve all Brent schools, in relation to need. In contrast, The TaHMS service is a traded service, and as such is an optional service for those schools that choose to participate. In addition, the Inclusion Support Team is not solely a clinical team but a multi agency team with education workers, parent support workers, and advisory teachers as well as clinical practitioners who are fully integrated into the overall team.
  - 2.21. The Inclusion Support Team will be expected to provide targeted support to schools and pupils in Brent across the continuum of emerging difficulties to children with persistent and complex needs recognised by a statement of SEN and children who are LAC with social, emotional or mental health needs.
- 2.22. It is not the intention as suggested in the TAMHS response that the Inclusion Support Team will mirror the work done in TAMHS "of providing a therapeutic Intervention". The Inclusion Support Team will prioritise high quality and holistic assessments through the 'RAFIE' model and will work with schools to encourage a better understanding and use of standardised assessment tools and thereby better capacity to meet the underlying education learning and emotional needs of their pupils.

#### Use of teaching and learning responsibility (TLR) payments

- 2.23. Through the consultation period, staff raised concerns about the removal of TLRs within the PRUs and the impact on day-to-day management of the centres.
- 2.24. Within the new structure TLR payments will be made in line with the School Teachers Pay and Conditions Document. This indicates that TLR payments are made "for undertaking a sustained additional responsibility in the context of their staffing structure for the purpose of ensuring the continued delivery of high-quality teaching and learning and for which the teacher is made accountable". TLRs would not be payable for just managing programmes of work.
- 2.25. Within the proposed KS 3 / KS 4 PRU we believe that the five leadership roles will be sufficient to pick up specialist work and responsibilities and we have now explicitly included the role of SENCO in the JD for Assistant Head of Centre posts within both the KS3 and KS 4 services.
- 2.26. TLR payments will be made to those teachers within the new structure who have specialist, advisory roles, i.e. the Behaviour Support Teachers and LAC Advisory Teachers, on the grounds that their roles involves leading, developing and enhancing the teaching practice of other staff, has an impact on the educational progress of pupils other than the teacher's designated classes or groups of pupils, and requires the teacher to lead and manage pupil development across the curriculum.

#### **Grading of posts within the new structure**

2.27. A number of respondents on the GLPC scale queried the grades for their posts on the grounds that the grading compared unfavourably with other posts in the structure/or wider Council services. However, all GLPC jobs were independently evaluated by job evaluation in accordance with the agreed scheme. Where posts have higher grades, this tends to reflect variations in managerial responsibilities, educational requirements, the complexity of work and/or enhanced levels of responsibility – rather than simply the number/range of tasks completed or where additional tasks have simply been added to the job description.

7

#### Working hours and flexible working

- 2.28. As indicated in the consultation paper, support staff (i.e. non teaching posts) within the PRU will be on term time only contracts (41 weeks), ensuring effective support to teachers and pupils during terms time. Non PRU based posts (excluding those on teachers' terms and conditions) will be on 52 week/full time contracts.
- 2.29. We recognise that some staff in the structure currently have flexible working arrangements, including part-time hours or compressed hours. When staff are offered posts /assimilated into posts in the new structure, they will be able to submit a flexible working request for consideration. Management will then make decisions on any requests received, taking into account the operational needs of the service and individual circumstances.

#### KS3 /KS4 PRU Finance Officer Role

2.30. Discrepancies between the job description for the KS 3/ KS 4 Finance Officer post were identified by respondents, with the JD describing a wider role than the consultation paper proposed. The JD has therefore been amended to make clear that the Finance Officer post will provide support to the KS 3 / KS 4 PRU only (see Appendix 4), with other parts of the service supported by the Council's Business Support Service.

#### Referrals and Data Coordinator Role

2.31. In response to issues raised during the consultation, we have changed the title of this post to Referrals and Virtual Learning Coordinator as this better reflects the specialist nature of the role. This has no implications for the grade or ring-fencing arrangement for this post and the details of the job description/grade remain unchanged.

#### **Education Welfare Officer (Exclusions)**

2.32. In response to issues raised about the clarity and content of the job description for the proposed EWO Exclusions post, we have made some changes to make the requirements in relation to the EWO aspects of the role much clearer. This now ensures that the post has parity with the other PO2 EWO posts in the EWO Service. The revised job description was re-evaluated in light of the changes but the grade remains unchanged (PO2).

#### Managing change and transition

- 2.33. Staff have raised concerns about the impact of the restructure on students and the need to minimise any negative impact on them, with a staggered approach to voluntary redundancy suggested as one means of managing this effectively.
- 2.34. In response to these concerns, we have decided to stagger the notice periods for voluntary redundancies, with PRU support staff given a notice date of 31<sup>st</sup> January 2014 and teaching staff given a notice date of 30<sup>th</sup> April 2014. Unqualified teachers who have not been matched to new posts in the structure will leave the service on 31<sup>st</sup> December 2013. These arrangements will ensure that we can recruit new staff and manage handovers effectively while ensuring continuity of support for those pupils preparing for public examinations.
- 2.35. In recognition of the need to ensure stable and permanent leadership for the service, we have already advertised the Head of Service post and a number of vacant senior manager posts will be advertised in w/c 21<sup>st</sup> October 2013. We have also issued the tender for clinical support and expect to have this part of the service up and running no later than 1<sup>st</sup> February 2014.

#### Service name

2.36. After further consideration it has been agreed that the service will be known as Brent Inclusion and Alternative Education Service. This will ensure that stakeholders, including Brent schools, recognise the service as a single point of contact for alternative education needs. The title also reflects the strong focus on inclusion across the service.

#### 3. Final decisions on the new structure and working arrangements

- 3.1. Overall the proposals set out in the initial consultation document have remained largely unchanged. However, as indicated above, some of the initial job descriptions have been amended, with some titles/grades and/or content changed. For clarity, job descriptions subject to any changes are listed below and included in full in Appendix Four, with changes highlighted in red:
  - LAC Advisory Teacher
  - LAC Information Analyst
  - Head of Health Needs Education Team
  - Deputy Head of Health Needs Education Team
  - Assistant Head of Centre KS 3/ KS 4 (x 2)
  - Administrative and Examinations Officer (x 3)
  - Finance Officer
  - Referrals and Virtual Learning Coordinator
  - Education Welfare Officer (Exclusions)
- 3.2. The new structural proposals will now be implemented in line with the timetable set out in Section 7 of this report. Appendix 2A sets out the existing filled posts that will be deleted as part of this process and Appendix 2B sets out the vacant posts that we intend to delete as part of this process. Appendix 2C sets out the posts that will remain unchanged. The final structure for the new service is set out in Appendix 3A-3F, with all new job descriptions set out in a zip file circulated alongside this report.
- 3.3. The new structure contains 68 posts, compared to 97 in the old structure. However, 36 of the current posts are vacant and only 56 permanent employees are directly affected by these proposals.

# 4. Budgets and Savings

4.1. The estimated full year savings to the dedicated schools budget from the final structure are now £675,000. However, £480,000 of these will be in part be used to fund new initiatives, including support payments to schools allocated pupils under Fair Access arrangements, the development of a new virtual classroom resource, commissioned support for the small number of KS1 and KS2 pupils who require out of school placements and clinical input for the new inclusion support team. The remaining net savings will be used to offset the historic deficit in the schools' budget.

# 5. Ring-fencing, assimilation and pay protection

5.1. **Appendix Five** sets out the matching process for each role within the new structure. This does not yet take into account those staff who have been offered voluntary redundancy (16 staff). As a result, some staff identified as subject to competitive assimilation may be directly assimilated when voluntary redundancy decisions are known.

Alternative Education, Behaviour and Attendance Services Consultation Version: 1

- 5.2. Selection for new non-teaching posts has been undertaken in accordance with the Council's Change Management Procedure, based on job descriptions and /person specifications for new and existing posts. The following approach has been taken to the matching exercise:
- Direct assimilation occurs when the old and new posts are substantially similar to existing
  roles within the same grade range, and there is the same number, or fewer potential
  redeployess.
- **Competitive Assimilation** competitive assimilation occurs when there are more potential re-deployees than roles available and the roles are substantially similar.
- **Ring-fencing** this occurs when displaced (unmatched) employees are potentially matched to posts using the skills profile information. The post is a maximum of two grades up or one grade below and the role is deemed as a suitable alternative by management.
- 5.3. Non- teaching staff who are not matched at this stage on their basis of their existing job descriptions/ person specification, will be required to complete a skills profile form by 24<sup>th</sup> October and return this to Heather Renaud, HR Services Manager at <a href="heather.renaud@brent.gov.uk">heather.renaud@brent.gov.uk</a>, along with an indication of which unmatched posts within the structure they are interested in applying for, preferably in order of preference. Provided that their skills and competencies broadly match those of the new person specifications we will organise interviews for the vacant posts in November 2013, with any candidates identified as suitable through the interview process directly assimilated into the vacancy.
- 5.4. Teaching staff (including leadership grades) on teachers terms and conditions within the scope of the review have been matched to available posts on the following basis:
  - Key Stage 3 and Key Stage 4 PRU and Kingsbury Assessment Centre teaching staff were matched to available teaching/leadership posts in the new KS 3/4 PRU.
  - Teaching staff at Brent Education Tuition centre were matched to available teaching/leadership posts in the new Health Needs Education Service.
- 5.5. All teachers matched to teaching posts within the Health Needs Education Service or the Key Stage 3-4 will additionally be required to demonstrate that they have up-to-date expertise / previous qualifications in the required curriculum.
- 5.6. Within the Key Stage 3 and 4 PRU the teaching specialisms required are: English; Mathematics; Science and other enrichment subjects (including PHSE, expressive arts, ICT, food technology, media studies and PE) up to GCSE and BTEC level.
- 5.7. Within the Health Needs Education Service the required teaching specialism are: English; Mathematics; Science and other enrichment subjects (including PHSE, expressive arts, ICT, food technology, media studies and PE) up to GCSE and BTEC level.

Alternative Education, Behaviour and Attendance Services Consultation Version: 1

- 5.8. Teachers who do not teach one of the core subjects to GCSE level (English, Maths; and Science) are expected to teach at least two of the subjects identified as enrichment subjects.
- 5.9. Once the level of voluntary redundancies among teaching staff is confirmed, managers within the service will assess the remaining teachers against the criteria outlined above. Those who meet the criteria will be notified of their proposed assimilation in writing in the week commencing 28<sup>th</sup> October 2013. Those teachers who do not meet the above criteria will be notified that they are at risk of redundancy and given an opportunity to apply for voluntary redundancy on existing terms and conditions.

#### Pay protection for non teaching staff

- 5.10. Where non-teaching staff (including those on Soulbury and GLPC grades) suffer financial loss by accepting a post on a lower grade than their current post, pay protection will apply provided the drop in grade is no more than 2 grades (in accordance with the previous Managing Change Policy May 2011). Pay protection is for a period of one year. This does not apply to a reduction in the number of hours worked.
- 5.11. Pay protection will apply where a notice of redundancy has been issued and have found redeployment; or for those who have been offered suitable alternative employment due to organisational change.
- 5.12. When the protected period has ended, the salary will be revised immediately and paid in accordance with the salary grade on appointment and which protection was given. No other allowances or payments, which are not relevant to the new appointment, will continue to be paid beyond the pay protection period.

- 5.13. Protection of salary will cease when:
  - the protection period has ended
  - the salary of the new post reaches or overtakes the protected salary
  - If an employee applies voluntarily for, and is appointed to, another position within the authority, where the salary is lower than that protected

#### **Pay Protection for Teaching Staff**

5.14. Pay protection for non-teaching staff is set out in the Council's Managing Change Policy. Pay protection for teaching staff will be in accordance with School Teachers' Pay and Conditions Document 2013. At the time of writing this document the final document has not been issued (publication expected September 2013).

## 6. Support and development

- 6.1. Support will continue to be provided to staff affected by these proposals, with access to half day sessions on job search and e-learning modules on interview skills and CV and application form writing. Staff can also get support during the change process through the Council's employee assistance programme. The scheme included face to face counselling as well as telephone counselling. The service is free and confidential, and telephone lines are open 24 hours a day, seven days a week. Details of the range of support available are set out in **Appendix 6** of this document.
- 6.2. Members of the Children and Families HR team will also be available for one to one sessions with staff during the implementation period. Sessions can be booked through sending an email to <a href="mailto:brenteducationconsultation@brent.gov.uk">brenteducationconsultation@brent.gov.uk</a>.
- 6.3. Staff appointed to posts within the new structure will also benefit from professional, management and IT training as appropriate. Training will be implemented as part of a wider service improvement pan and be supported by a needs analysis to identify individual training needs.

- Self Development & Career Management these more general modules show how to develop and implement a career plan for the longer term. They provide a structured approach to assessing your own development needs, developing a plan and appraising your progress.
- Impact of change for Employees completing this module will help you to consider the impact of change. It will also help you to understand the need for change and how to cope with it.
- Impact of change for Managers completing this module will help you to consider the impact of change for you and your team. It will also enable you to prepare your team members for change and support them through the change process.

The modules below are aimed at those who may be facing redundancy or a change of jobs as a result of organisational change:

- Reviewing career options this module is aimed at those at risk of, or considering choosing redundancy. It will help you take stock of where you are in your career, and analyse your skills and personal attributes. The module also focuses on how training can help you prove and improve your skills and appreciate other possibilities like self-employment, volunteering, further education or career break travel.
- Searching for Jobs in this module we offer key points that will enable you to use formal and informal sources of new job information, recognise the positives and negatives of selfemployment and appreciate the possibilities of volunteering.
- Applying for Jobs this module is on applying for jobs. It offers tips on preparing a good CV, completing paper and on-line application forms and responding to advertisements by letter and on-line.
- Writing a CV this module offers valuable insight into putting together a quality CV. What to include, the problems you may face and the importance of tailoring for each specific job.
- Preparing for Interviews this module offers insight into conducting a successful interview. It outlines the different types of interview and the questioning techniques commonly met with. The module also highlights the importance of effective preparation and the steps to take should you not be successful at interview.
