Subject: Peaches review

Dear Sir, Madam

I would like to lodge a complaint about Peaches Nightclub and I am delighted that the review was cancelled in January as I believe that my letter did not go forward to the appeal on time. I have complained for many years about Peaches and Mr Adolphis PC was aware of my logging of complaints and also ringing him on his mobile when he was on call, in the middle of the night over many years. Although I have to say that the noise levels have improved especially as we have double yellow lines on both sides of our road in Draycott Ave and the weather is not good but I am still disturbed, eg, last Saturday I was woke around 2 ish I believe and witnessed groups of men and women in the middle of the road about to start a fight. The fight seemed to move down to the Kenton Road so I went back to bed.

So yes I get disturbed regularly at weekends and I am dreading summer when customers loiter in the road shouting and chatting or worse. I am an epileptic and with sleep deprivation I am more prone to experiencing seizures.

I am hoping that the neighbours will also write to you as I know that they are disturbed too.

I was wondering what happened to the 80 signatures that were collected for the last review in January that was cancelled? A man called Neil collected them and I am hoping they are now going to be lodged with the appeal. Kind regards. I would be grateful if you could confirm receipt of this letter.

Yours faithfully

PE
