Lavine

Sorry for my delay in my reply but I have been on leave.

The Public Safety Team has not agreed for the exit gates or doors to be locked while the public are on the premises. The following licence condition was included when we last made a Representation :-

- The locks and flush latches on the exit doors and gates shall be unlocked and kept free from fastenings other than push bars or pads whilst the public are on the premises.

Best regards

Dear Colin,

Following my visit this weekend to Peaches I was concerned with the fire exit in the beer garden. It is a fire exit gate that is locked and the key is kept with the door supervisor who is based at the rear exit door leading to the garden. Neil said that the council have addressed this previously and it is ok to have this in place. Neil said that the reason they keep it locked is because people have tried to enter the premise from this gate. Can I have your input on this please? Have you discussed this with them in the past?

Kind Regards
