Marys Hospital. VIW1 initially refused to go to hospital but was eventually persuaded by his friend and LAS staff that if he did not his life could be in danger due to his injuries.

Police accompanied VIW1 to St Mary's hospital. PS Reeves was informed of the incident and also the extent of injuries and was also informed that the victim did not want to provide police with any information.

Dr Sutherland ordered various body scans. Dr Sutherland informed officers on scene that the injuries were not life changing or life threatening.

Officers spoke to VIW1 and told him that they wanted to seize his outer clothing and shoes to assist with identifying the persons involved in assaulting him. VIW1 refused to allow this and stated "I will sort him out myself". VIW1 was advised not to try and find the person responsible. Police also tried without success to convince the victim to assist police with their enquiries.

VIW1 had a bump to the right side of his forehead. VIW1 also had a cut near the eye brow area and grazes near his right cheek area. There were also some small cuts on the victims hands.

The public house was closed upon police arrival and therefore although they possibly had CCTV inside and outside the venue this could not be viewed or seized.

Brent Council CCTV covers part of the scene but would only have started recording that side of the scene when police arrived.
