Driving Organisational Efficiency

Ref No	Unit /Service	Description:	Item	2017/18 (£'000)	2018/19 (£'000)	Theme
DOE001	Support Planning, Reablement & Mental Health	Increase Direct Payments	This will mean that people pay for their home care/community support through independent Personal Assistants or direct purchasing of support from providers. A market for Independent Personal Assistants will continue to be developed in the local area to maximise the benefit.	50	50	Driving Organisational Efficiency
DOE002a	Early Help	Transformation of the design and delivery of early help	Effective and co-ordinated early intervention will build resilience and independence which will in turn move cases out of high risk and high cost services. As far as possible there will be a one worker to one family approach. Savings will be achieved through three main workstreams: 1. More effective co-ordination and signposting and to early intervention services delivered by partners including schools and the voluntary sector; 2. Improved use of research to ensure a greater strategic focus on high impact interventions and more effective assessment of individual need. Savings will be achieved by reducing delivery of low impact or repeat interventions; 3. Planned structural change across CYP. In the first instance this will enable the delivery of a more coherent offer which is expected to reduce demand for high cost services. Any reduction in demand will then enable a further reduction in headcount.	350	550	Driving Organisational Efficiency
DOE002b	Children's Social Care	Signs of Safety and Social worker recruitment	Increased efficiencies of £200k driven by the Signs of Safety programme and a linked, but separate, reduction in the reliance on agency staff across the division. There are approximately 70 agency social workers, deputy and team managers in children's social care currently. Over the two year period the plan is to reduce this by 40, this would realise a saving of approximately £300k.	300	200	Driving Organisational Efficiency
DOE002c	Children's Social Care	Regionalising Adoption	Government has indicated its intention to regionalise some or all of local authority adoption services by 2017. In London the preparatory work is being led by the London Adoption Consortium which is currently conducting a scoping exercise on the model that this regionalisation could take and the scale and type of services that could be regionalised. This piece of work is due to conclude in March 2016 with a view to delivering from April 2017. Local Authorities will not be able to stop providing adoption services but they will be delivered differently; whether through a collection of Local Authorities or commissioned with a single provider. This will lead to some efficiencies – particularly in the area of the recruitment and assessment of adopters as well as the provision of post-permanency support. Current estimates are that it will be 15% of the budget £100k.	100	0	Driving Organisational Efficiency

Driving Organisational Efficiency

Ref No	Unit /Service	Description:	Item	2017/18 (£'000)	2018/19 (£'000)	Theme
DOE003	Community Services	To review staffing structures and spans of control across the eight services divisions	Savings of £2.25m would come from a 20% reduction in FTE across all eight services. The review would particularly include contract management and strategy development arrangements so that these can be standardised and rationalised across all large operational contracts in a way that creates consistency of approach and improved service outputs.	1,125	1,125	Driving Organisational Efficiency
DOE004	Corporate Business Support	Review support service costs	The proposal is to review the level of support services provided within the council– human resources, legal, IT, business support and finance – in the future to create a leaner more efficient service to users. The options for achieving the saving are: restructuring, merging, outsourcing, shared services, and driving greater efficiency through technology and self-service.	500	500	Driving Organisational Efficiency

Civic Enterprise

Ref No	Unit /Service	Description:	Item	2017/18 (£'000)	2018/19 (£'000)	Theme
CE001	Support Planning & Reablement	Additional Continuing Health Care (CHC) Funding	The saving comes from the CCG funding care packages rather than the council. It should mean a better service for users with complex needs. The CCG should fund this care as they have the necessary skills to meet these needs. Previously a move to CHC funding has meant a loss of choice and control for the user that they had with a social care package, but this is no longer the case as they can now have a Personal Health Budget.	400	400	Civic Enterprise
CE002	Cross Department	Income Generation	The generation of advertising and sponsorship income of £300k from increasing the number of on street (large and small format) billboards, lamppost banner, advertising on the council's website/intranet and roundabout sponsorship. Put in place concession contracts for the installation of wireless equipment on lampposts and review current position on rooftops and small spaces/buildings generating £210k. Carry out a review of fees and charges comparing Brent to neighbouring authorities in order to bring our charges in line including for services that were previously free with a view to raising £1.99m of additional revenue.	1,250	1,250	Civic Enterprise
CE003	Digital Services	IT Sales	Following the successful provision of ICT services to the LGA and the establishment of the shared service with Lewisham. The Lewisham service will start in April 2016 covering infrastructure support and in 2017/18 will be extended to other applications. Digital services would be looking to offer ICT services on a commercial basis to other organisations. The service is already in discussion with a number of London boroughs that have expressed interest in what we can do for them and are looking to develop this so that we can have something in place for April 2018.	375	375	Civic Enterprise
CE004	Parking & Lighting/Parking	Eliminate the additional overhead costs of the Serco parking contract	It was originally intended that the cost of the overheads for the Serco parking contract would be apportioned on a 60:38:2 ratio between the three participating boroughs: LB Brent; LB Hounslow; and LB Ealing; respectively. The ratio was calculated in proportion to the value of the overhead costs being transferred to Serco at the commencement of the contract. Immediately prior to the letting of the contract, LB Hounslow identified a shortfall on the savings target required by their administration. It was agreed between the boroughs that, on a temporary basis, the ratio would be amended to 80:18:2 (Brent: Hounslow: Ealing), with a review in January of each year to assess whether the additional contribution from Brent to Hounslow could still be justified. Brent's additional contribution is £347k p.a. and this will be reviewed.	300	47	Civic Enterprise

CE005	Finance	Better collection of debts and arrears	To generate at least £1m per annum from better collection of debts and arrears across the range of council paid for services and taxes. A review of the balance sheet and underlying processes has indicated that this is a realistic but stretching target at this stage. Following a detailed review by the One Council programme office and consultation with managers across the council officers have identified opportunities to improve debt collection, including through more efficient processing, better management of arrears, improved cross-council working through a newly established debt board and better management of clients with multiple debts. This work follows the successful pilot in adult social care debt that demonstrated the potential is one service area, and this model is now proposed to be extended across the council.	1,000	0	Civic Enterprise
CE006	Regeneration and Growth	Civic Centre - Rental Income	Additional income could come from additional lets eg Library café space, increased income from the basement car park or from further release of office space	125	125	Civic Enterprise

Making Money Go Further

Ref No	Unit /Service	Description:	Item	2017/18 (£'000)	2018/19 (£'000)	Theme
MGF001	Procurement	Contract Renewal Savings	There are 161 contracts due for renewal over the next three years (2016/17 - 2018/19). This includes 63 contracts above £500k and 98 contracts below £500k. The aim will be to approach the market with a target of 10% savings against current contract prices. In addition savings to be achieved on the end of the Streetlight PFI contract by replacing the current contract requirements by a repairs only contract	3,500	4,500	Making Our Money Go Further
MGF002	Transportation	Saving in combined budgets for core highways maintenance work within the Lohac contract and for separate reactive maintenance work.	The saving is a 10% reduction in budgets for highways reactive repairs (roads, pavements, signs, street furniture, markings), gulley cleansing, inspections and call outs.	50	50	Making Our Money Go Further
MGF003	Regeneration and Growth	FM Contract	Savings in FM contract. This could flow from a further reduction in buildings within the contract or from a revision to the contract. The alternative option which is unlikely to be acceptable to CMT, is to negotiate a reduction in the contract in return for triggering the additional period which is available at the end of the current contract period.	100	100	Making Our Money Go Further
