Dear Sir / Madam:

Ref: Application for Licenses for Costcutter at 46 – 48 Harrow Road HA9 6PL.

I would like to submit an objection to the application applied for, due to the following reasons:

This is a residential area, and it is on the corner of a religious and social center where education for young boys and girls is offered after normal school hours. Furthermore it is a family place where parents trust the locals to offer a safe place for their youngsters to learn and socialize in different ages, it is a multi-background communal center.

Street drinkers and people in the nearby park will cause nuisance and litter the local park, where these youngster pass through and play too. It will increase antisocial behavior and loitering, and may be a good marketing base for drug and other substances.

There are already far too many shops that offer alcohol, additionally there is a ridiculous amount of litter cast away onto the streets, and it's an even more dire case in the park and the alleyways behind the shops.

These shops take no responsibility for rough sleepers in the park and the nearby areas, and another shop will only increase the problem for the residents and their kids who are already weary walking or enjoying the park, and it's even more dangerous walking to their evening school.

Just considering the trouble the children suffer from the existing shops, one more shop will discourage them to join in on any out door activity. This will make them stay at home and encourage **unhealthy living styles, WHICH the government fighting to reduce.**

These are some of the grounds I object granting the license.

Yours sincerely,

  
Shakespeare Road  
London
