

Dear Sirs

I wish to raise strong objections to the proposed application for a restaurant on the corner of Churchill Road, from the points of view of the opening hours, late licensing sought by the applicant and outside yard. My objections relate to noise, street care, potential crime and disorder and the potential risk to public safety.

Churchill Road is a quiet, residential road and although the address of the proposed business is on The High Road, a large proportion of the business is actually on Churchill Road, along with the back yard. The proposed late opening hours during the working week and at the weekend will create noise, rubbish (which is already a problem on the street) and as a [REDACTED] [REDACTED] I fear that parking will be even more difficult and worry about my safety if I have to park far from my home. I feel it is totally unsuitable for a premises such as this to become a restaurant with late licensing and a smoking section so close to residential property. I worry about disturbance and people who will be hanging about after the restaurant has closed and what this means to me as a resident, my property (along with my safety & property value) and what is also means to my fellow neighbours.

Kind regards

[REDACTED]
