

To whom it may concern.

During the past 18 months / 2 years living in Ecclestone Place (the small street to the rear of these premises) Friday and Saturday night have become intolerable between the hours of 12.30 am and 4.30 am. There is a constant stream of cars parking, slamming doors, patrons of these premises getting out of their cars, music blasting, hanging around sitting on the bonnet, drinking and doing nitrous oxide, littering the street with cans, bottles and these gas cannisters. Not to mention the arguments and fights that have occurred.

When I have had cause to go outside and ask them to be quiet, turn the music off, or leave from in front of my home, I am met with a lot of abuse and threatened with physical violence or that they will,

I quote

*"Call the police we don't give a f...k cos they won't come!"*

*"Do you want us to smash your windows!"*

*"We are in a public street and can do what the f..k we like!"*

On one occasion I had to go out to pick up my daughter at 2.00am, they would not let me out of the street on to Wembley Hill Road, they were parked on both sides, when I asked them to move they told me to reverse back up the street, and banged on the car roof, which was extremely intimidating and frightening. They (the Patrons) are often very drunk or very high and have little respect or regard for the public in general.

In reality this is stupid place to have a nightclub, shisha bar or whatever it is. There is no parking, and the Licensee whilst she displays signs at her premises requesting her patrons to respect the neighbourhood, the Security Guards she employs remain in the entrance to the premises, and pay no attention whatsoever to what is going on outside or to the rear of the premises.

Regards
