This strategy was recommended for approval by local statutory organisations by the Delivery Area 3 (Out of Hospital) Board and by the Joint Health and Care Transformation Group

4.0 Financial Implications

- 4.1 The financial implications are set out at a high level in the October submission of the STP, with further detailed modelling undertaken as part of the detailed business cases currently in development. There is significant transformational money attached to this programme of work within the STP, and it is expected that this investment would be targeted at those areas that will yield the biggest

financial return, including through both local government and health commissioned services.
