

Objections received on 17/01/2017 from [REDACTED]

I am begging you. Please, please, please don't let them have this licence. I am listing reasons below.

1. Their parties always start around 1am and go through till anywhere between 4am and 6am.
2. They ALWAYS let people come in after 11pm even though their previous licence said they couldn't.
3. I had Brent Noise officers at 4.30am meetings to hear the noise. The Brent Noise officers, in conjunction with complaints from the people above number 47, and myself fought successfully to have the licence revoked from something like 6am to 2am.
5. This is why they want a new licence, because, culturally, they need to be open from roughly 1am to around 6am. But why should it be EVERY DAY? This is absurd.
6. Any limits set by the licence will be ignored.
7. There is no soundproofing in this stretch of Cricklewood Broadway.
8. The licence for Persia II at 45 Cricklewood Broadway (currently closed) only went till midnight. Why should their neighbour have a later one?
9. I was on sleeping tablets because the noise was so bad that there was no way to sleep. Persia II was playing loud music from around 8pm to around midnight (sometimes later). Then D'Den would start from around 1am to around 6am. This means the whole night was loud music.
10. I am on sickness benefits because of Chronic Fatigue Syndrome/Myalgic Encephalitis and because of a suicide risk. I need to sleep. My daughter also has CFS/ME and suicidal thoughts. She needs to sleep.
11. New buildings have to have proper soundproofing. But the council grants licences to companies in old buildings even if there is no soundproofing. Why should I be discriminated against just because this is an old building?
12. I understand that this stretch of Cricklewood Broadway is commercial. But it is ALSO residential. The council should insist that soundproofing is carried out before granting any licences for music.
13. If the council wants to insist how commercial this stretch is, then they should declare it a commercial zone and not allow property in this stretch to be used as residences. I am begging you. Please, please, please.
