Nix,

Meeting notes from Crystals this afternoon.

Present for Crystals: Abi (the business man), Paul Kelly (DPS), Kupusamay (PLH) (accompanied by his nephew Darshan).

Abi did most of the talking, as usual. He has said that the club is happy to accept and fully comply with the action plan. They said that the I.D Scanner has been purchased (they did not feel it was financially viable to rent). They will no longer sell single bottle of spirits. These can be purchased by waiters/waitress will serve these in the correct measures. The CCTV has been arranged and the only part outstanding is the fact that they need to install a wi-fi modem so that Kupusamay can remotely monitor the CCTV.

They also mentioned that they want to put a variation in to extend the Sports Bar (Mango's) into Aqua abd extend the capacity in order that they can add extra seating. We said that we would discuss this as a team. They said that they are still discussing the idea as a business but wanted to gauge our views.

Following the main meeting, Kupusamay and his nephew wanted a chat. Nephew stated that he and his uncle were simply the licence holders and that they do most of the function/catering work. They wanted to distance themselves from Paul Kelly. I had to remind him that he is the licence holder, and that if he was at all uncomfortable then he considers transferring the licence or holding discussions with Paul Kelly and co. They said that they were happy for now. Attached is the signed copy of the action plan.
