Dear Mr Rasitharan,

It has been noted that the premise was open until 1:15hrs on Saturday 8th October 2016. Please can you explain why you opened past your permitted hours as per your premise licence?

Kind Regards

Esther Chan

Dear Mr Rasitharan,

Thank you for your email.

We do not have engineers to obtain the CCTV recordings, it is the responsibility of the premise licence holder to supply this to us. Whilst the installation of CCTV and provision of CCTV recordings is not a condition on your premise licence, we would strongly suggest that you have CCTV in a good working condition and recordings are kept for 31 days in order to uphold the licensing objections. Please find attached guidance on CCTV from the home office, which I hope you find useful.

As discussed during my visit on Tuesday 27th September 2016, as the licensee and DPS, you are expected to know all the conditions on the premises licence and to have made provisions with staff to ensure that none of the licensing conditions are breached. You are also required to know the hours you are authorised for the licensable activities you have been granted by the Licensing Authority.

May I also remind you that your application for the variation of your premises licence had been rejected. As per the attached email from the licensing team on 27th September 2016, we cannot proceed with your application until you have provided all the relevant documents and amendments, which is required by **Friday 14th October 2016**.

Please do not hesitate to contact me should you require further clarification/information.

Kind Regards

Esther Chan

Attention : Ms Esther Chan,

Re: 773 Harrow Road, Wembley, Middlesex, HA0 2LW

I write in reference our discussion in regards to the CCTV footage, few weeks back engineers came to the shop, did some repairs due to the same faulty in the system.

I am trying get the footage but I am finding difficulty, I have called the engineers to come assist me in this regards and waiting for his response,

In the meantime, if you could kindly sent your engineers to obtain the recording from my computer, would very much appreciate.

Kind Regards,

Gunasingam Rasitharan
