Motion selected by the Conservative Group

GRENFELL TOWER TRAGEDY

The Conservative Group condemns the overt politicisation of the Grenfell tragedy by Jeremy Corbyn. We commend the calm and measured response from the Government to this tragedy, including the announcement of a public inquiry, substantial funding for the victims, re-housing and renewed fire safety checks on buildings across the country.

We acknowledge the speed with which Brent Council acted to support the Royal Borough of Kensington and Chelsea and all vulnerable residents.
