Subject: Further and still continuous identical licensing violations from Arista Bar, before and after receiving the "review application" council notification.

To: Patel, Yogini <[yogini.patel@brent.gov.uk](mailto:yogini.patel@brent.gov.uk)>

Dear Mrs Patel,

I hope that you are keeping well.

I had been busy with my own work for past few weeks but I have not stopped working on our issue with Arista Bar and continuous licensing violations which have not stopped despite the licensing review application that they received by the council, they visibly just do not care about that review application notice.

I have now got weeks of voluntary licensing violations on recorded discs before, on, and most importantly after they received their notification.

On one particular night (07/07/2017), a blond lady is even seen being thrown out pretty violently from Bar Arista head of security personel and be subjects to further physical assaults by the same security even though she was then out of the Bar Arista and in the street on public pathway!

Knowing the procedure after sending you some previous exhibits under the form of video disc, I already have and ready to submit 3 video disc copies of each nights of licensing violations, including the Arista Bar security assault on that female customer, as there is no doubt in my mind that she has suffered even more physical assaults inside Bar Arista considering what happened to her outside Bar Arista, and Bar Arista indoor cctvs should confirm my suspicions.

People were not and still not being searched by security when entering that Bar Arista, and this is exactly what I meant under the non-prevention of "safety" under the 2003 Licensing regulation in this Bar Arista, even such violent security personel life is at risk because of their own professional past and continuous negligence. It was a unarmed woman, such altercation could be with a male customer next time round and so with any weapon on himself. It is not that difficult to search people, specially when they know that I personally reported that fact already to the council licensing department but Bar Arista management and security personel do not care as I already said above, and they won 't care until somebody really get hurts in that place.

I will by tomorrow send my reports linked to each video disc as before, for every single night where Bar Arista voluntary and kept voluntary violating their license regulation even after the Council notification.

Once again, I would be very curious to know where were our [REDACTED] "friends" lead by [REDACTED] during all these Bar Arista licensing violations, it 's almost a two months report from us of regular and continuous voluntary Bar Arista licensing violations!

All must be fine isn't 't since it 's nothing to do with Ruby Louge, [REDACTED] or myself!

I will from today report any of them [REDACTED] to the Independent Police Complain Commission each and every time they unjustifiably harrass or interfere with our business maliciously, just like I and [REDACTED] reported [REDACTED] couple of months ago over [REDACTED] maliciously misleading the Council committee members over our Ruby Lounge business, as well as [REDACTED] personal vendetta against [REDACTED] and now myself after I took his defence for [REDACTED] not telling me what [REDACTED] had done wrong which really upset, as I believe that mistake or professional mistakes are human and not as bad as voluntary bullying business people because of the effect of a uniform or once given authority.

I respect and will always respect descent police officers, but I will never appreciate or tolerate malicious bullies!

Regards

Mr.Frank Chipan
