**Subject:** DIU Bazaar off License License request

To The Licensing Authority

To Whom it May Concern

Dear Sir/Madam

I understand that the above business premises are requesting a license to sell Alcohol.

It is off grave concern for the residents and the local area that the ongoing issues in relation to such granting of license, are making not only the area a "eyesore" but is harming the area in many ways.

As you are aware that we have not only approached the council for help but also helped the council to be able to act to tackle the problem emanating from such anti social behaviour.

Our streets have become littered with alcohol cans and bottles

Our Children feel fearful to play in the street

Girls/ women/ Old age Pensioners are in fear of the amount of men who occupy the street

The Park has become a public drinking area

Men have been exposing their private parts in front of the children and women

Violence is not very far away when tackling the issue

Although certain laws have been put into place it has not resolved the issues and takes up valuable time of the Police and law and order Agency.

The example for children is not a good one when all they see is men drinking all day without any respect for the local environment.

The atmosphere for such a potentially great area has been ruined by these men and they do effect the area on a large scale.

There are many other issues which arise from granting the license, please take a walk around the back of Diu bazaar during the day and see the issues in their disgusting reality.

We as a, family with 4 children, whom all loved and valued a beautiful street please request that you do not grant a license for the sake of this area becoming intolerable, there are already many licenses issued so there is no need for another problem to contribute to the already disgusting state of the neighborhood.

please do not grant the license and please do visit the area and see the evidence for yourselves.

Kind Regards

Braemar Ave
