Subject: application for the grant of a premises licence

i [REDACTED] a resident of braemar avenue would like to object in the granting of a premises licence for the following reasons it would add to the exiting noise drinking littering of cans and bottles in our street and there is a park at the end of our road where people meet for drinking and then there is litter everywhere urinating and making a public nuisance .in our street they are lots of family with chilidren who could not use the park .there is a license premises only 5 shops away from the proposed applicant allready .so we do not need another license premises .so this is the reason i would like to oppose aganist granting of a license premises
