**1.0 Purpose of the Report**

1.1 This report presents progress on the Brent Reservoir / Welsh Harp Management Plan since the last meeting of the Committee and during the 2017/18 year to date. The Management Plan is jointly managed by the three main land-holding organisations: Brent Council, the London Borough of Barnet, and the Canal & River Trust.

**2.0 Recommendation(s)**

2.1 Members are asked to note the Report.

**3.0 Detail**

3.1 The current version of the Welsh Harp / Brent Reservoir Management Plan (dated 15 March 2016) is available on the Brent Council website at <https://www.brent.gov.uk/media/16404048/brent-reservoir-welsh-harp-management-plan-15-03-2016.pdf>

3.2 The Welsh Harp / Brent Reservoir Management Plan includes an Action Plan for the current year; which for this committee report is updated as Appendix A. The 'Progress' column summarises current progress.

3.3 As reported at the last meeting, several areas of rubbish were removed from the shoreline and nearby areas of Neasden Recreation Ground during the summer of 2017. The local community and the Welsh Harp Litterpickers have organised, during the winter, a clean-up along several hundred metres of the shoreline and marshland of Neasden Recreation Ground. Brent Council are organising for contractors to clear litter along the boundary with the North Circular Road and in an area of scrub woodland near to the eastern end of Neasden Recreation Ground.

3.4 Boardwalk to the east of Neasden Recreation Ground. The boardwalk in the Reservoir land beyond the eastern edge of Neasden Recreation Ground remains with damaged sections (as at mid-February 2018). The boardwalk also incorporates a small footbridge over the brook that flows from Dollis Hill / the North Circular Road to the Reservoir. The landowner has been contacted; and as far as is practicable, access has been discouraged to the start of the boardwalk.

#### **4.0 Financial Implications**

4.1 The Brent Reservoir / Welsh Harp Management Plan provides recommendations for works to be undertaken. Works are only undertaken when approved by the service responsible for delivering the works within existing approved budgets.

#### **5.0 Legal Implications**

5.1 Under the Wildlife and Countryside Act 1981 as amended by the Countryside and Rights of Way (CROW) Act 2000 and the Natural Environment and Rural Communities (NERC) Act 2006, land owners or occupiers, and also public bodies, are required to give notice to and consult with Natural England where they wish to carry out, or cause or permit to be carried out any operation in an area of land that is of special interest by reason of any of its flora, fauna, or geological or physiographical features (this requirement applies to operations within a site of special scientific interest ('SSSI'), and to operations outside the SSSI that may affect the features of interest); and Natural England will issue consent, with conditions or refuse consent. Failing to follow this process is a criminal offence which may result in a fine and a restoration order. CROW (and section 28G of the Wildlife and Countryside Act 1981) places a duty on all public bodies to take reasonable steps, consistent with the proper exercise of the authority's functions, to further the conservation and enhancement of the site. When advice is obtained from Natural England prior to carrying out the works an explanation of how the Council has taken into account any advice Natural England has given should be provided –

The Council must be able to show that it considered alternatives that could reduce the impact on the SSSI –

The Council should demonstrate how the Council has assessed differing interests (including the special interests of the SSSI) in deciding to go ahead with the works.

5.2 It is good practice for land owners or occupiers to produce Management Plans for the SSSI, which when approved by Natural England, enable the carrying out of the works specified in the Management Plan. This can reduce the

administrative work inherent in obtaining consent for individual items of management work.

5.3 The Natural Environment and Rural Communities Act 2006 requires that all public authorities in England and Wales have a general duty to have regard to the conservation of biodiversity so far as is consistent with the proper exercise of their functions.

5.4 The owner of land included in a SSSI has a legal duty to inform Natural England within 28 days of any changes in ownership or occupation of the site, including leases, easements and rights.

## **6.0 Equality Implications**

6.1 Decision makers must have due regard to the public sector equality duty in making their decisions. Consideration of the duties must precede the decision. It is important that regard is had to the statutory grounds in the light of all available material. The public sector equality duty is set out at section 149 of the Equality Act 2010 and is as follows:

A public authority must, in the exercise of its functions, have due regard to the need to:

- (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
- (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
- (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

Having due regard to the need to advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it involves having due regard, in particular, to the need to:

- (a) remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic;
- (b) take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it;
- (c) encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

Having due regard to the need to foster good relations between persons who share a relevant protected characteristic and persons who do not share it involves having due regard, in particular, to the need to:

- (a) Tackle prejudice, and
- (b) Promote understanding.

The relevant protected characteristics are:

- Age
- Disability
- Gender reassignment
- Pregnancy and maternity
- Race,
- Religion or belief
- Sex
- Sexual orientation
- Marriage and Civil partnership

6.2 No potential adverse impact arising from the recommendations in this report has been identified at this stage. However, the equalities implications identified in the Equality Analysis will continue to be considered and assessed as further data / information is obtained or becomes available during the implementation process.

## **7.0 Consultation with Ward Members and Stakeholders**

7.1 None specific.

## **8.0 Human Resources/Property Implications (if appropriate)**

8.1 None specific.
