

ANNUAL INVESTMENT STRATEGY 2012/13

1. Brent Council has regard to the Department for Communities and Local Government Guidance on Local Government Investments (“Guidance”) and CIPFA’s ‘Treasury Management in the Public Services’.

2. Investment Principles

2.1 All investments will be in sterling. The general policy objective is the prudent investment of the council’s treasury balances. The council will aim to achieve the optimum return on its investments commensurate with the proper levels of security and liquidity.

2.3 The Guidance maintains that the borrowing of monies purely to invest or on-lend to make a return is unlawful. The council will not engage in such activity.

3. Specified and Non-Specified Investments

3.1 Investment instruments identified for use in the financial year are listed in Appendices L(ii) and L(iii) under the ‘Specified’ and ‘Non-Specified’ investments categories. These are defined as follows:

a) Specified Investments (as set out in the Guidance) are those that offer high security and liquidity. Such investments will be in sterling, with a maturity of no more than one year, and will be made to bodies with high credit ratings – UK or local government, banks, building societies, money market funds, and supra-national institutions.

b) Non-specified Investments (as set out in the Guidance) are those that may either entail more risk or are more complex, such as gilts, certificates of deposit or commercial paper.

3.2 Appendices L(ii) and L(iii) also set out:

(a) the advantages and associated risk of investments under the category of “non-specified” category;

(b) the upper limit to be invested in each ‘non-specified’ asset category;

4. Liquidity

4.1 Based on its cash flow forecasts, the council anticipates its fund balances in 2012/13 to range between £30m and £60m.

4.2 Giving due consideration to the council’s level of balances over the next three years, the need for liquidity, its spending commitments and provisioning for contingencies, the council has determined that up to £20m may be held in ‘non specified’ investments during the year.

- 4.3 Appendices L(ii) and L(iii) set out the maximum periods for which funds may be prudently committed in each asset category. The duration of cash deposits has been shortened to three years (from five years) following severe volatility seen in the recent credit crisis. However, the current lending list will continue to use the shorter limit of one year to recognise that the banking system has not yet healed from the credit crisis.

5. Security of Capital: The Use of Credit Ratings

- 5.1 Credit quality of counterparties (issuers and issues) and investment schemes will, in the first instance, be determined by reference to credit ratings published by Fitch IBCA, Standard and Poor's, and Moody's (long-term/short-term, individual, support and sovereign), but the council will use the lowest ratings from the three companies. The Council will also use group and national limits to assist in proper diversification of investments, as well as duration limits.

5.2 Monitoring of credit ratings:

- All credit ratings will be monitored continuously. Brent Council is alerted to changes in ratings through the adviser's (Arlingclose) website and emails.
- If it is anticipated that a downgrading may occur following adverse economic developments; the Head of Exchequer & Investments or a dealer will have discretion to remove the counterparty from the lending list.
- If a downgrade results in the counterparty/investment scheme / country no longer meeting the council's minimum criteria, its further use as a new investment / investment venue will be withdrawn as soon as possible.
- If a counterparty/investment scheme is upgraded so that it fulfils the council's criteria, the Director of Finance & Corporate Resources will consider including it on the lending list.
- The council will also use other sources of information to assess the credit worthiness of counter-parties and general market intelligence. Information will be gleaned from the treasury adviser, financial publications, asset managers and Capital Economics.
- Dealers are expected to act prudently and may decline to use particular counterparties if there is any cause for concern.

6. Investments Defined as Capital Expenditure

- 6.1 The acquisition of share capital or loan capital in any body corporate is defined as capital expenditure. Brent Council will not use any investment which will be deemed capital expenditure.

7. Investment Strategy to be followed In-House

- 7.1 Investments will be made with reference to the core balance (around £40m), cash flow requirements and the outlook for short and medium-term interest rates (i.e. rates for investments up to 3 years).

7.2 Once stability has returned, the council will seek to utilise its business reserve accounts and short-dated deposits (1-3 months) in order to benefit from the compounding of interest at potentially higher rates, while looking for longer-term opportunities when the market becomes too pessimistic about rising rates. Brent Council has identified 2% as an attractive trigger rate to consider 1-year lending and 5% for 2 and 3 year lending. The 'trigger points' will be kept under review and discussed with Arlingclose so that investments can be made at the appropriate time. The current market environment makes it extremely unlikely that longer term opportunities will arise.

8. External Cash Fund Management

8.1 Brent Council does not currently use an external fund manager.

9 The role of the treasury adviser

9.1 The treasury adviser (Arlingclose) gives advice on debt restructuring opportunities, interest rate movements, economic forecasts, external treasury managers and current capital finance developments. The adviser also provides credit ratings, and details of changes / possible changes in ratings.

9.2 However, it is for the council to take decisions on whether or not to act on the advice given. Other sources of market information and intelligence will also be sought.

10 Borrowing in advance

10.1 The council has previously used the Capital Financing Requirement (CFR) as a measure of borrowing need, but the low level of short term interest rates means that either short term loans will also be taken or internal cash balances used. The CFR reflects the total capital expenditure of the authority.

10.2 The council plans that total borrowing should be at, or about, CFR at the year end. However, the capital programme may be delayed, leading to total borrowing being above CFR. Other factors will also affect borrowing decisions. If it is expected that long-term rates may rise, borrowing may be undertaken early. This will be particularly important if there is a major project being undertaken, such as the new Civic Centre. If long term rates are high, but short term rates very low (as at present), borrowing may be delayed to reduce funding costs.

10.3 If borrowing is undertaken in advance of need, the balance will be placed with a secure counterparty. If large sums are involved, consideration will be given to purchasing an appropriate government gilt, to preserve capital.

11 Staff training

11.1 There are three main treasury management training 'areas'. First, dealing, which requires understanding of cash flow issues, information systems, the

lending list, dealing and settlement of deals. Second, authorisation of deals, which requires knowledge of the lending list and information systems. Third, management requires an understanding of the market, treasury management codes, economic background, and current treasury management policies and strategies.

- 11.2 Staff training is reviewed on an ongoing basis to ensure that trainee accountants are given an initial treasury induction, and that dealers / managers are given access to market developments and technical updates on treasury issues (particularly changes to the lending list) and regular dealing practice.
- 11.3 Training needs are met through a variety of methods. New dealers are given on the job induction training, to enable them to deal competently, as well as attendance at relevant external conferences and seminars. Ongoing learning is through conferences, workshops and seminars provided by the main treasury organisations, CIPFA and economics consultancies. The principal treasury officer has passed the course in Treasury Management organised by the Association of Corporate Treasurers and CIPFA.

**LOCAL GOVERNMENT INVESTMENTS
SPECIFIED INVESTMENTS**

All "Specified Investments" listed below must be sterling-denominated.

Investment	Share/ Loan Capital?	Repayable/ Redeemable Within 12 Months?	Security/ Minimum Credit Rating	Capital Expenditure?	Circumstance of Use	Maximum Period
Debt Management Agency Deposit Facility	No	Yes	Govt-backed	No	In-house	1 year
Term or callable deposits with the UK government or with UK local authorities	No	Yes	High security although local authorities are not credit rated.	No	In-house	1 year
Term or callable deposits with credit-rated deposit takers (banks and building societies)	No	Yes	Yes-varied	No	In-house	1 year
Gilts : with maturities up to 1 year	No	Yes	Govt-backed	No	In house	1 year
Money Market Funds (i.e. a highly rated collective investment scheme)	No	Yes	Yes- minimum : AAA	No	In-house	<i>Subject to cash flow and liquidity requirements</i>

Investment	Share/ Loan Capital?	Repayable/ Redeemable Within 12 Months?	Security/ Minimum Credit Rating	Capital Expenditure?	Circumstance of Use	Maximum Period
Forward deals with credit rated banks and building socs	No	Yes	Yes-varied	No	In-house	1 year in aggregate

LOCAL GOVERNMENT INVESTMENTS
NON-SPECIFIED INVESTMENTS

Investment	(A) Why Use It? (B) Associated Risks?	Share/ Loan Capital?	Repayable/ Redeemable Within 12 Months?	Security/ Minimum Credit Rating	Capital Expenditure?	Circumstance of Use	Max % of Overall Investments	Maximum Maturity of Investment
<p>Term deposits with credit rated deposit takers (banks and building societies) with maturities greater than 1 year</p>	<p>(A)</p> <p>(i) Certainty of rate of return over period invested.</p> <p>(ii) No movement in capital value of deposit despite changes in interest rate environment.</p> <p>(B)(i) Liquid : as a general rule, but cannot usually be traded or repaid prior to maturity.</p> <p>(ii) Return is fixed even if interest rates rise after making the investment.</p> <p>(iii) Credit risk : potential for greater deterioration in credit quality over longer period</p>	No	No	Yes-varied	No	In-house, authorised by senior management	100%	3 years

Appendix L(iii)

Investment	(A) Why Use It? (B) Associated Risks?	Share/ Loan Capital?	Repayable/ Redeemable Within 12 Months?	Security/ Minimum Credit Rating	Capital Expenditure?	Circumstance of Use	Max % of Overall Investments	Maximum Maturity of Investment
Forward deposits with credit rated banks and building societies for periods > 1 year (i.e. negotiated deal period plus period of deposit)	(A)(i) Known rate of return over period the monies are invested ~ aids forward planning. (B)(i) Credit risk is over the whole period, not just when monies are actually invested. (ii) Cannot renege on making the investment if credit rating falls or interest rates rise in the interim period.	No	No	Yes - varied	No	To be used in-house, authorised by senior management	50%	3 years

Investment	(A) Why Use It? (B) Associated Risks?	Share/ Loan Capital?	Repayable/ Redeemable Within 12 Months?	Security/ Minimum Credit Rating	Capital Expenditure?	Circumstance of Use	Max % of Overall Investments	Maximum Maturity of Investment

* **The prohibition on the use of derivatives** : This prohibition effectively relies on the judgement of the House of Lords in the case of *Hazell v The Council of the London Borough of Hammersmith and Fulham and Others* in 1991. Their Lordships held that local authorities have no power to enter into interest rate swaps and similar instruments.

Our treasury adviser, Arlingclose, believes that as this ruling still stands and was not rescinded by the introduction of the Local Government Act 2003, local authorities do not have the power to use derivative instruments.
