Subject: FW: CONSULT - TEN - Boxpark Atrium Communal Space - 14407

Dear Licensing

NCT withdraw this objection on the basis of the applicant (copied into this response) agreeing to the following conditions:

1. The volume and frequency of music (with special consideration given to low frequency sound) shall be arranged in such a manner that public nuisance is not experienced by the occupiers of neighbouring and nearby residential units.
2. Regulated entertainment will cease at 02:00hrs.

Kind regards

Martin

Hi Martin

Thank you for the phone to talk through our applications.

I can confirm we will agree to the below conditions.

If there is anything that you would need clarification on please let me know.

Thanks

Pete

Dear Peter

As discussed by phone a moment ago, the Nuisance Control Team (NCT) object to this TEN due to concern that regulated entertainment over the period applied for may give rise to public nuisance.

NCT will consider withdrawing this objection if you agree to the following conditions:

1. The volume and frequency of music (with special consideration given to low frequency sound) shall be arranged in such a manner that public nuisance is not experienced by the occupiers of neighbouring and nearby residential units.
2. Regulated entertainment will cease at 02:00hrs.

I look forward to hearing from you.

Kind regards

Martin
