

# Equality Impact Analysis Data

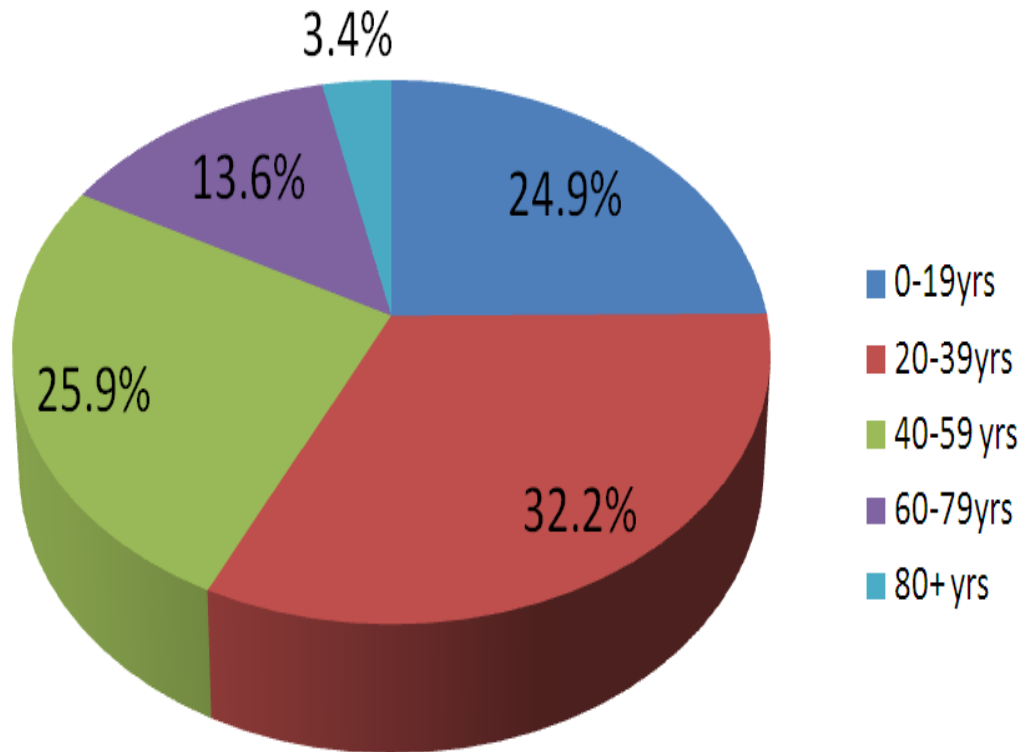

Themed Grant Funding  
Stream 2012 - 2015

# Data

- Data is predicted based on proxy of people presently benefiting from similar projects or an assessment of cohort of people targeted in project
- For some protected characteristics there was no reasonable data on which to base a proxy and as such organisations sought to open the project to all and these projects were not included in the graph for that particular protected characteristic
- Data is provided by the organisations bidding for funding
- Brent Statistics are drawn from Brent's Evidence Base and JSNA
- Actual data provided through monitoring will enable analysis of those benefiting once projects are underway and any identified issues arising from this data will be picked up through the performance management of projects.

# Age Profile – Brent Population

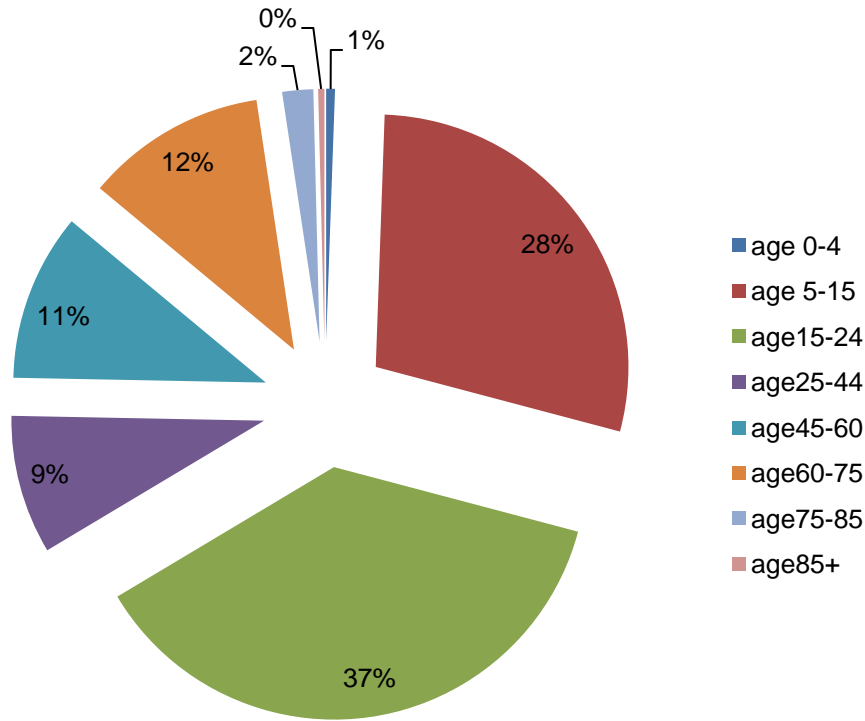

- 63,800 young people(0-19yrs)
- 149,100 adults (19-59yrs)
- 43,600 older people(60+ yrs)

(ONS 2010)

# Age Profile –Recommended Grant Projects

## % people benefiting by age

**66% 5-24 years of age, above that in general population, but in line with identified need for projects**

**14% over 60s, just under that in general population, but in line with identified need for project**

**2 organisations did not have actual proxy data so are not included here**

# Disability Profile – Brent Population

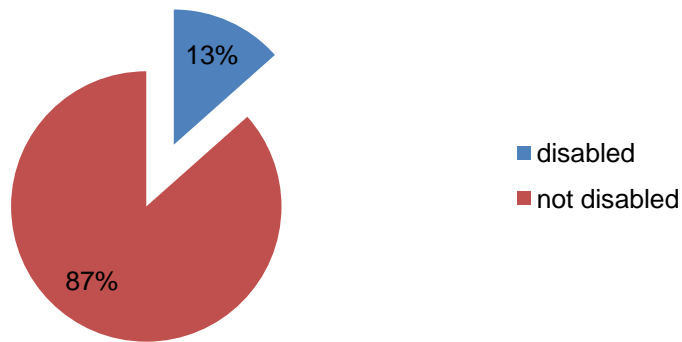

- In 2010-11 there were 765 people with learning disabilities known to Brent council.
- The majority of people with learning disabilities known to the council are aged between 20 and 59.
- The breakdown by gender is: Male 58% female 42%.
- The age breakdown of clients with learning disabilities is as follows:

• 18-19	23
• 20-29	200
• 30-39	135
• 40-49	193
• 50-59	138
• 60-69	62
• 70-79	11
• 80-89	2
• 90+	1

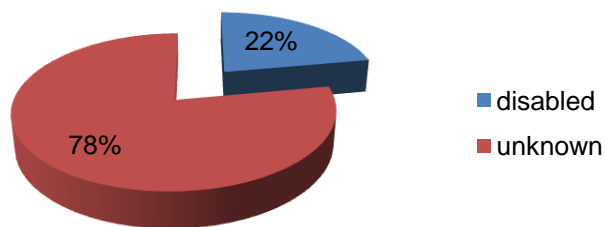

15.6% of the population state that they have a limiting long-term illness, health problem or disability which limits the amount of daily activity or work that they can do.

# Disability Profile – non themed model grant projects

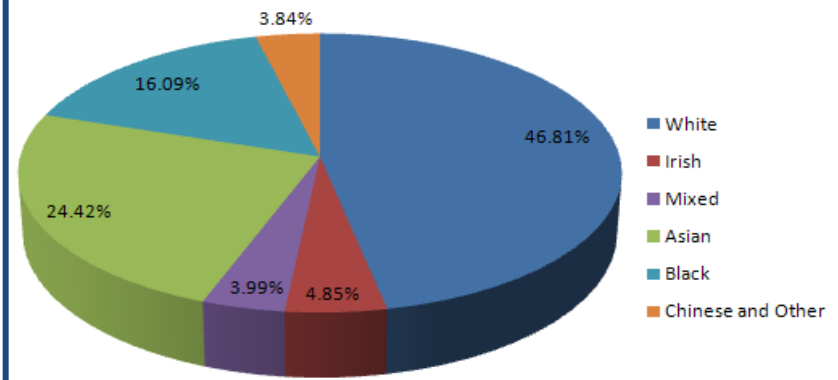

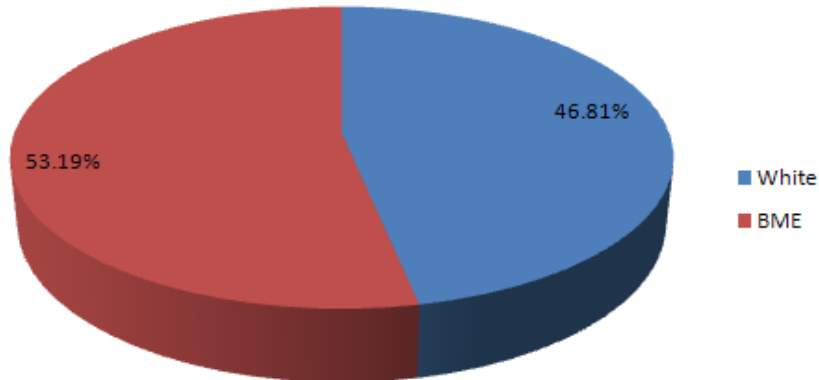

Numbers of disabled expected to benefit just under that seen in general population

But percentage funding benefiting disabled above that seen in general population

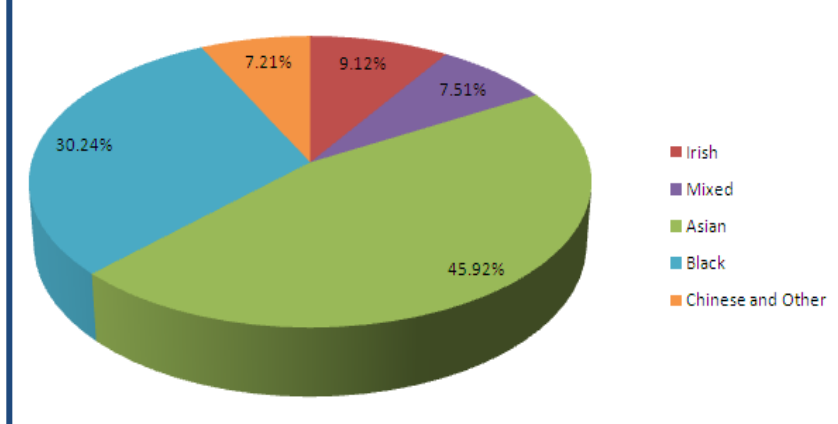

# Race Profile – Brent Population

- 53% of the population are from Black, Asian and Minority Ethnic backgrounds.
- 71% of the population are from a group other than White British

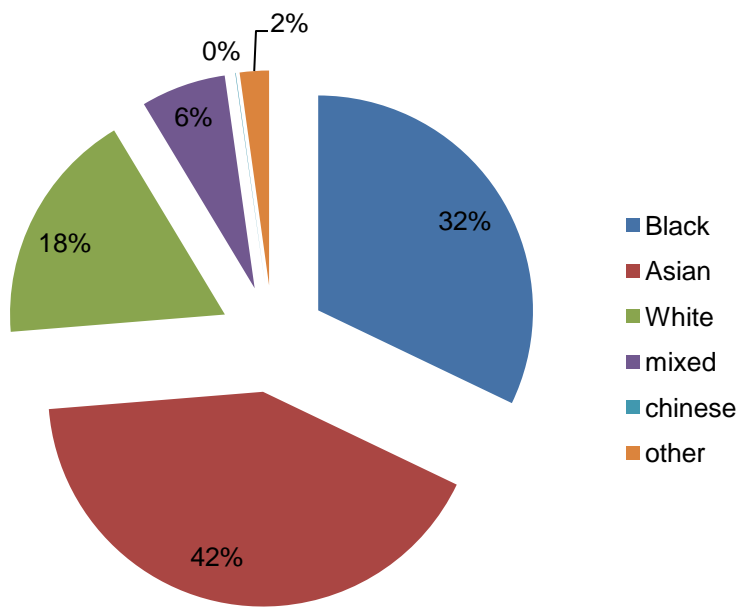

- Diverse BME profile with largest proportions of the population being Indian, Black Caribbean and Black African

(ONS 2009)

# Race Profile – Non Themed Model Grant Projects

% people benefiting from projects by race

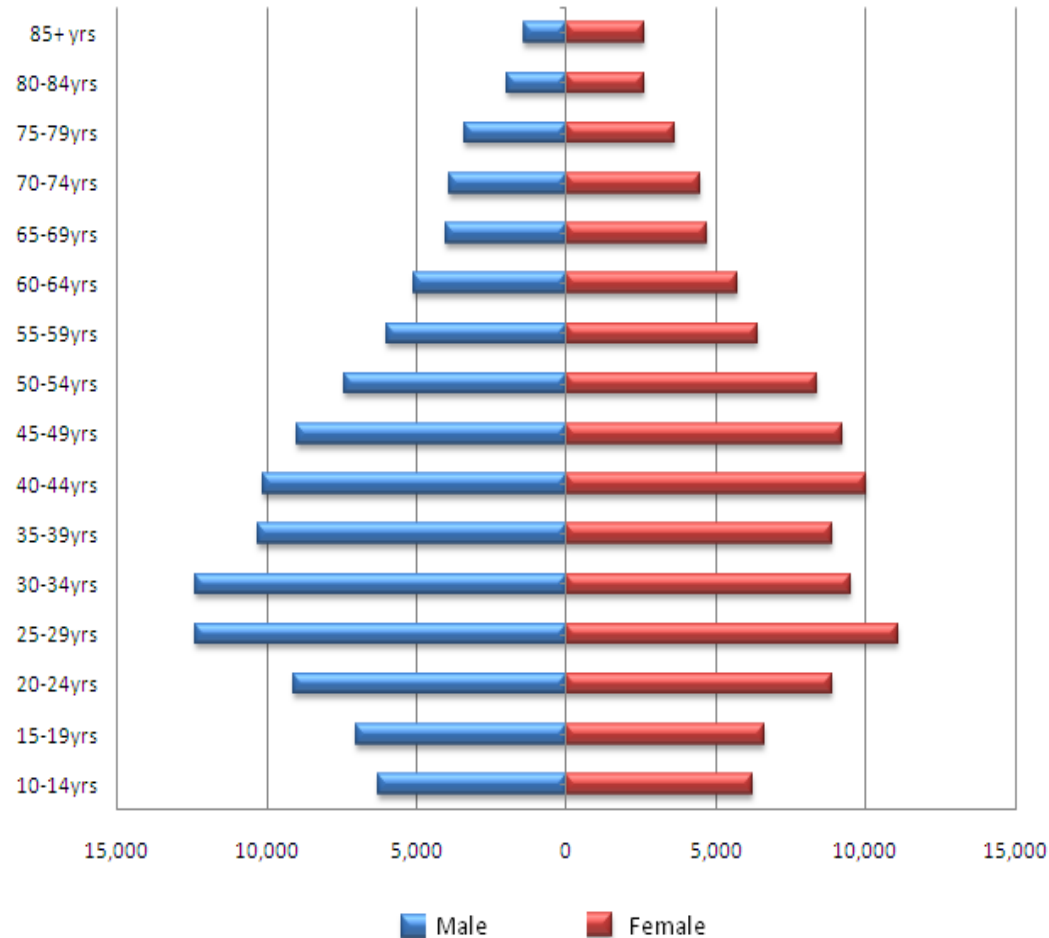

4 organisations did not have exact proxy figures and are not included here

# Sex Profile – Brent Population

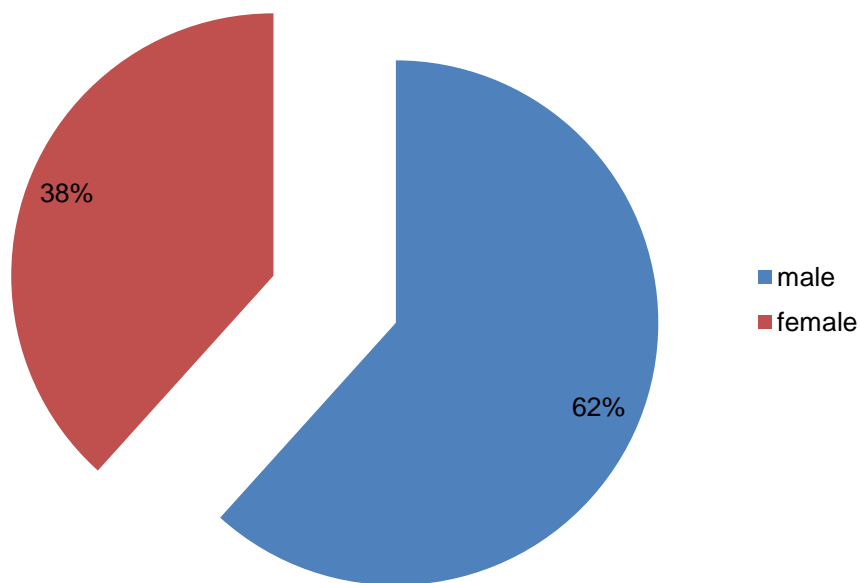

- 129,100 males
- 127,400 females

(ONS 2010)

# Sex Profile – Non Themed Model Grant Projects

More male than female expected to benefit from projects

3 projects did not have proxy data and so it is not included here
