

Full Council – 30th June 2008

**Motion selected for debate by Councillor Ann John,
Leader of the Labour Group**

Streetcare

This Council deplores the failure of the current Lib Dem/Tory administration in regard to streetcare. We urge the current failed Lib Dem/Tory administration to pay particular attention to:

the proliferation of weeds following the Lib Dem / Tory administration's removal of preventative measures for weeds,

the level of broken pavements in Brent, especially following the deletion of revenue funding for pavement repairs.

the inadequate level of streetlighting in Brent

the levels of shoddy pavements in Brent

the abolition of street wardens, leading to the diminution of environmental services on important Town Centres, such as Harlesden

the failure of the £25 charge to raise adequate revenue, and its success in leading to more flytipping in the Borough.
