## **Full Council – 9 July 2018**

### **Motion selected by the Labour Group**

This council joins international condemnation of the recent killings of 130 Palestinian protestors by Israeli forces – firing live ammunition into crowds of unarmed civilians is illegal and must not be tolerated; any escalation in this long-running dispute is deeply regrettable.

This council is appalled that more than two thirds of Palestinians are reliant on humanitarian assistance, with limited access to essential amenities such as water and electricity.

This council supports the right to protest against such awful conditions, against the continuing blockade of Gaza, and occupation of Palestinian land, and in support of a viable two state solution.

This council calls upon the UK government to encourage the UN Secretary General to renew his call for an independent international inquiry into these killings, and review the sale of arms that could be used in violation of international law.
