- **highlights the progress already made through planned and promoted public meetings, thanks each and every participant for their invaluable contributions thus far;**
- **thinks those responsible within the organisation for their efforts to date, and commits itself – in light of the importance of these measures as a first tangible foray against climate change set in the context of the new behaviours and habits that they are designed to encourage – to continue providing comprehensive updates to the appropriate forums and committees, this one included, at the earliest opportunity, covering, but not limited to, the following:**
