

## **Additional Photos 2 from Resident Rep 20**

These two photos show the blind bend on a sloping part of Bryan Avenue where in March the delivery driver had a fatal or near fatal accident on a bike

This spot has had numerous accidents including a car that came down the street not knowing there was a bend and went into a wall of a garden causing it to collapse, luckily none was on the street at the time

These two accidents as well as numerous minor scrapes show that Bryan Avenue is a danger spot for road users and pedestrians, which is why Brent Council has put in speed bumps (what has not stopped incidents like this)
