

Hi there,

I am the owner of SAM's chicken on Wembley high road. My staff and myself have never heard or witnessed any disturbance, criminal activity or nuisance from the VIP Lounge which is a few doors down from my shop. They mainly open on weekends and customers that attend there also come and buy food from us sometimes which is good for business. I witness a lot of things in and around the Wembley high road as we close late in the night but never anything bad to do with here. Sometimes the road behind our businesses gets full with cars but this is also down to people attending other places nearer the other end of the road and around Lancelot road. There has also been noisy neighbours on a couple occasions playing music in cars and having friends drinking on the road late at night. We have even witnessed football fans during the euro matches coming and banging on our glass and hitting shutters on neighbouring shops for no reason. More should be done to help and protect the Wembley businesses rather than making it hard for some. I think they are being picked on for some reason this needs looking into.

Regards

Sams Chicken
