

# Annual Counter Fraud Plan 2023-24

## A. Introduction and Objectives

The objective of the Counter Fraud Plan is to ensure that the resources of the Counter Fraud Team are effectively targeted and deployed to prevent and detect fraud. The plan is underpinned by the [Anti-Fraud and Bribery Policy](#) and the [Whistleblowing Policy](#), which set out the approaches and strategies that have been developed and established to tackle fraud and corruption.

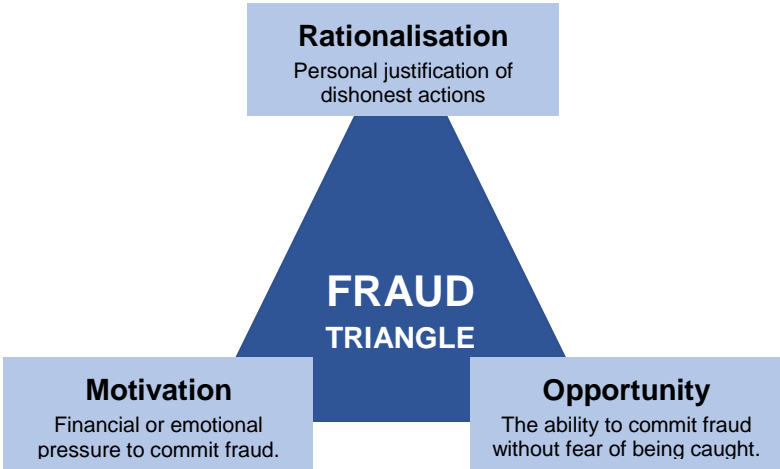

The plan is also prepared in consideration with the [Fighting Fraud and Corruption Locally Strategy](#), produced by the Fighting Fraud and Corruption Locally initiative, a partnership between local authorities and key stakeholders.

## B. Background and Context

All local authorities continues to face a significant fraud challenge. The tackling of fraud therefore remains a high priority to ensure that every penny is invested in delivering high quality services to residents.

In recent times, the impacts of the Covid-19 pandemic and the cost of living crisis have further exacerbated the challenges the Council faces from fraud and corruption. Combined with the continued pressure and strain on the Council's resources, this has continued to create an ideal environment for fraudulent activity where all elements of the 'fraud triangle', in which fraud thrives, have been heightened.

The increased risk of fraud is therefore clear, and as a Council we must ensure that we remain proactive in looking for and identifying fraud, whilst embedding a counter fraud culture at the heart of the organisation.

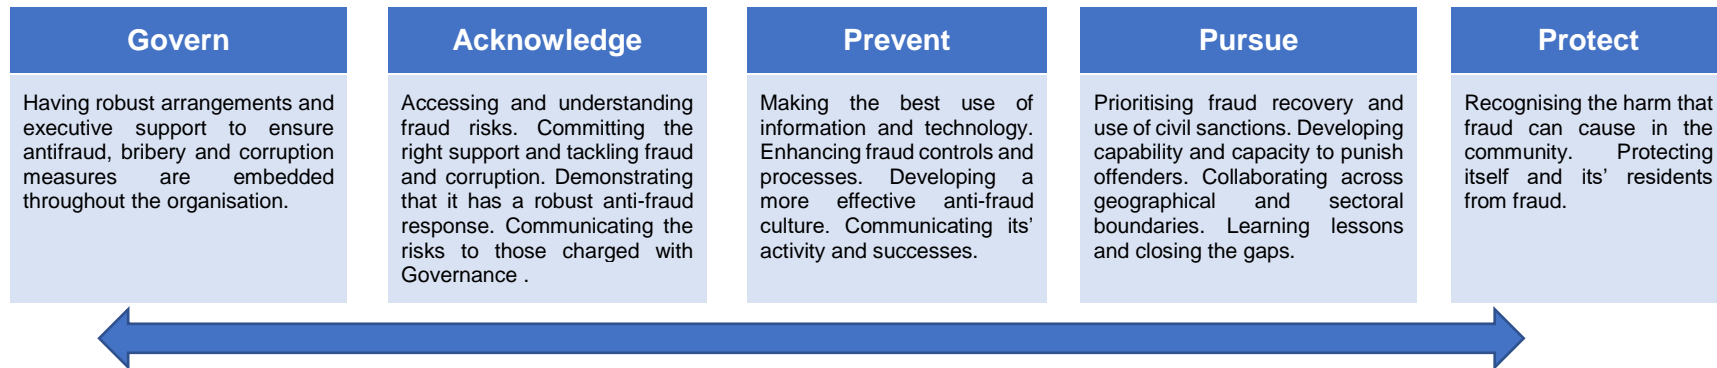

## C. Approach

The Council takes a well-developed approach to tackling fraud and corruption. A best practice and proactive approach is to tackle fraud through a combination of prevention and detection activities. The work of the Counter Fraud Team is therefore split accordingly between reactive and proactive activity.

- **Reactive activity** - largely comprising of referrals to the team in relation to internal, housing or external fraud types. All fraud referrals are subject to a robust risk assessment to ensure that resources are targeted and utilised effectively and efficiently
- **Proactive activity** - generated from within the team in response to a range of known and/or emerging fraud risks, and also incorporates issues flagged by the Internal Audit service. Proactive activities include data matching reviews, fraud workshops, targeted operations and other planned fraud risk reviews across all service areas.

Our approach and strategy is also aligned with the following five pillars set out within the [Fighting Fraud and Corruption Locally Strategy](#):
