

Hello

I am [REDACTED] I am a resident and business owner at [REDACTED] Market Way. I have been here for many many years now and see and hear lots of things. I have never been disturbed by any music or overly loud noise coming from this club the VIP Lounge which has an exit which leads onto Market way. The two men that run it Darren and Mido are always polite and if they park their car on Market way they leave their number in the windscreen incase a resident or another business needs to call for any reason. I feel they do good for the diversity of this Wembley area and I have no complaints about this business. Many times especially on weekend nights people come into Market way and stand up drinking and talking to early hours of the morning leaving their food and bottles when they leave. Many times as well on weekends people gather usually younger people in cars and play loud music and smoke and drink, this happened many times during the lockdown. Sometimes this goes on till after 5am which is a nuisance. The road is dirty and not maintained by council even though they now put yellow lines here and ticket people and fine businesses and residents that park here which is not right. If the road was clear or made private I believe these noise things and people who do not live here will not come anymore. There are some other clubs nearer the entrance of Market Way that may be getting blamed for things as well to which I dont know about but what I do know is that I have no complaints about noise or nuisance from the VIP Lounge.

If you need to contact me my email address is

[REDACTED]

Sincerely [REDACTED]
