

REVIEW STATEMENT IN REGARDS TO THE VIP LOUNGE WEMBLEY

To Whom It May Concern,

I am writing a review on my recent experience when visiting the VIP Lounge in Wembley. As someone who is very busy and not having much time to socialise whenever I do get a chance it is few and far between. I was given an invitation to celebrate with friends at this venue which I had never heard of or been to prior and upon realising that it was not a great distance from my residence I decided to attend.

I was pleasantly surprised with the execution of the event from the atmosphere, music, security and more importantly management from start to finish. In my years I have attended a few events as one can imagine. On this occasion I was pleased to see management actively taking on their role from interacting with customers and trying to insure that they were having a good time me being one of them. The tone was set from the door by being politely greeted by security and it was refreshing to find out that the head of the security was actually a female rather than the male stereo typical doorman.

My overall experience was a very positive one and as a result I would not hesitate time permitting to attend this venue again and I would recommend this venue to anyone.

Yours Faithfully
