

Welsh Harp Joint Consultative Committee

27 July 2023

Report from the Corporate Director of Resident Services

Welsh Harp Management Plan

Wards Affected:	All
Key or Non-Key Decision:	Non-Key
Open or Part/Fully Exempt: <small>(If exempt, please highlight relevant paragraph of Part 1, Schedule 12A of 1972 Local Government Act)</small>	Open
No. of Appendices:	One Appendix A - Welsh Harp / Brent Reservoir Management Plan: Action Plan for 2023-2024
Background Papers:	
Contact Officer(s): <small>(Name, Title, Contact Details)</small>	Leslie Williams, Project Officer, Parks Services Email: Leslie.Williams@Brent.gov.uk Tel: 020 8937 5628

1.0 Purpose of the Report

1.1 This report presents progress on the Brent Reservoir / Welsh Harp Management Plan since the last meeting of the Committee and during the 2023/24 year to date. The Management Plan is jointly managed by the three main land-holding organisations: Brent Council, the London Borough of Barnet, and the Canal & River Trust.

2.0 Recommendation(s)

2.1 The Committee is asked to note the Report.

2.0 Detail

3.1 Welsh Harp 'Vision':

The 'Welsh Harp Vision' is due for publication in late July 2023. Please refer to the Canal & River Trust item on the Agenda. The Vision has been prepared by the Canal & River Trust, Barnet Council, Brent Council, the London Wildlife Trust, Greater London Authority, Thames 21 and other partners.

3.2 Management Plan:

The current version of the Welsh Harp / Brent Reservoir Management Plan, (dated 2016 but a long-term management plan) is available from Brent Council. Refer to the Action Plan (3.3).

Website links to parts of the Welsh Harp are at:

[Welsh Harp Reservoir | Brent Council](#)

3.3 Action Plan:

The Welsh Harp / Brent Reservoir Management Plan includes an Action Plan that lists current year progress and actions that may require a longer time - frame and/or for the resources to be identified to undertake the action. For this committee the Action Plan is updated as Appendix A. The Action Plan provides notes and updates on issues and projects, rather than listing the details in this covering report. The 'Progress' column indicates current progress.

Note that the format of the Action Plan has been simplified and is now presented without the former colour coding of progress. For Brent Council, additional notes are provided in the following paragraphs:

3.4 Grounds maintenance contractor:

A new grounds maintenance contract commences on 1st August 2023 for the operational works in Brent Council's parks and open spaces. This will include the Welsh Harp Open Space, Neasden Recreation Ground and Silver Jubilee Park. The contractor is Continental Landscapes Ltd.

3.5 Marshland work:

Previous work to manage the marshland on the shore of the Welsh Harp Open Space provided for a range of conservation, landscape and recreational (water wind sports) needs, while retaining also a variety of trees within the marshland. However, shade is continuing to reduce the marshland vegetation on the south-western shore of the reservoir alongside Neasden Recreation Ground.

3.6 Welsh Harp Environmental Education Centre:

Brent Council's Cabinet resolved at the May 2023 meeting to approve proposals, as in the report for that Agenda, for the future of the Welsh Harp Centre as a post-16 skills resource centre for young people and young adults with special educational needs; and to enable horticulture, work experience and volunteering opportunities. There is the potential for use at other times by third sector and community organisations. Currently, Thames 21 are continuing to provide some limited services at the existing Centre.

3.7 Healthy Walks programme:

The walking programme continues. The Welsh Harp walks are on Thursdays from 10am to 1pm, meeting at the Welsh Harp Open Space end of Birchen Grove, Kingsbury NW9. For details please email healthyliving@brent.gov.uk

3.8 Pollution incidents:

The Environment Agency were following up from late March 2023 on a recurrence of a pollution incident onto the southern side of the Brent Reservoir SSSI.

3.9 Riverside Connections:

A new way-marked walking route has had signage installed in both directions between Wembley Park Station and the Welsh Harp (Welsh Harp Open Space at Birchen Grove). The route extends through a mix of quieter roads and green spaces including alongside the Canal Feeder and River Brent at Quainton Street Open Space, through Chalkhill Open Space, St David's Close Open Space and Chalkhill Park. Funding was provided as part of a Brent Council NCIL (Neighbourhood Community Infrastructure Levy). Design was provided with input by Thames 21 and then by Brent Council.

4.0 Financial Implications

4.1 The Brent Reservoir / Welsh Harp Management Plan is primarily a land-use document to guide land managers and others in the maintenance, management and legislative issues affecting the land management of the Brent Reservoir and associated land. The Brent Reservoir / Welsh Harp Management Plan also has a forward planning role, particularly in identifying the needs of land management over timeframes into the future.

4.2 The actions in the accompanying Action Plan (Appendix A) are achievable over varying time-frames, though many are not affordable within existing budgets in the short term. The actions will be closely monitored, prioritised and re-profiled to ensure there are existing resources available to mitigate against any possible overspends. More details of works are included in Appendix A. Where those works are not currently achievable, the Action Plan highlights key issues. Works are only undertaken when approved by the service responsible for delivering the works within existing approved budgets.

4.3 As is being reported to the Committee, the main land-holding organisations at the Welsh Harp and some other organisations are currently working on a 'vision' exercise, which will include a review of possible sources of funding and income for those works currently not affordable.

5.0 Legal Implications

5.1 Brent Reservoir / Welsh Harp is a designated 'Site of Special Scientific Interest' ('SSSI'). Section 28E of the Wildlife and Countryside Act 1981 as amended by the Countryside and Rights of Way Act 2000 ('CROW') and the Natural Environment and Rural Communities Act 2006 (NERC) sets out the duties in relation to SSSIs. Land owners or occupiers, and also public bodies, are required to give notice to and consult with Natural England where they wish to carry out, or cause or permit to be carried out any operation in an area of land that is of special interest by reason of any of its flora, fauna, or geological or physiographical features (this requirement applies to operations within a SSSI, and to operations outside the SSSI that may affect the features of interest). Natural England will issue consent, which may have conditions or refuse

consent. It is a criminal offence to carry out a listed operation without Natural England's consent or to ignore any conditions of a consent which may result in an unlimited fine and a restoration order. CROW (and section 28G of the Wildlife and Countryside Act 1981) places a duty on all public bodies to take reasonable steps, consistent with the proper exercise of the authority's functions, to further the conservation and enhancement of a SSSI. When advice is obtained from Natural England prior to carrying out the works, an explanation of how the Council has taken into account any advice Natural England has given should be provided.

The Council must be able to show that it considered alternatives that could reduce the impact on the SSSI and the methods being used are those that cause as little damage as practicable to the land.

The Council should demonstrate how it has assessed differing interests (including the special interests of the SSSI) before deciding to go ahead with the works.

- 5.2 It is good practice for landowners or occupiers to produce Management Plans for the SSSI, which when approved by Natural England, enable the carrying out of the works specified in the Management Plan. This can reduce the administrative work inherent in obtaining consent for individual items of management work.
- 5.3 The Natural Environment and Rural Communities Act 2006 requires that all public authorities in England and Wales, when exercising their statutory functions, must have regard to the conservation of biodiversity, so far as is consistent with the proper exercise of their functions.
- 5.4 Section 28Q of the Wildlife and Countryside Act 1981 requires the owner of land included in a SSSI to inform Natural England within 28 days of any changes in ownership or occupation of the site, including leases, easements and rights.

6.0 Equality Implications

- 6.1 Decision makers must have due regard to the public sector equality duty in making their decisions. The public sector equality duty is set out at section 149 of the Equality Act 2010 and is as follows:

A public authority must, in the exercise of its functions, have due regard to the need to:

- (a) eliminate discrimination, harassment, victimisation and any other conduct that is prohibited by or under this Act;
- (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it;
- (c) foster good relations between persons who share a relevant protected characteristic and persons who do not share it.

In terms of advancing equality of opportunity, this means to:

- (i) remove or minimise disadvantages suffered by persons who share a relevant protected characteristic that are connected to that characteristic;
- (ii) take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of persons who do not share it;
- (iii) encourage persons who share a relevant protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

In terms of

- (a) Tackling prejudice, and
- (b) Promoting understanding,

The relevant protected characteristics are:

- Age
- Disability
- Gender reassignment
- Pregnancy and maternity
- Race,
- Religion or belief
- Sex
- Sexual orientation
- Marriage and Civil partnership

6.2 At this stage, no potential adverse impact arising from the recommendations in this report has been identified. However, the equalities implications identified in the Equality Analysis will continue to be considered and assessed as further data / information is obtained or becomes available during the implementation process.

7.0 Consultation with Ward Members and Stakeholders

7.1 None specific.

8.0 Human Resources/Property Implications (if appropriate)

8.1 None specific.
