

Objection based on: 1. Prevention of Public Nuisance 2. Prevention of Crime & Disorder We live in an estate around 30 yards from the North London Tavern. Most weekend evenings there is some form of public nuisance, with patrons from the pub coming into our estate and urinating, and generally gathering and making quite a bit of noise late at night. While this is often intolerable, at least it's only on Fridays and Saturdays, as the following days are weekend days. However, extending their late license to include weekdays i.e school days is unacceptable. There are 6 families with young children in the estate alone (and many more in Cavendish Road close to the North London Tavern), and it's unacceptable to expose these young children to extra noise from music up to 01h30 on a school night. Not to mention the extra nuisance from loud, drunken patrons roaming the streets potentially every day at 01h30. Thank you for your consideration

---

For the record, I am objecting to any variation of the existing opening hours for both the downstairs and upstairs sections. I understand the variation application includes an extension to the existing opening hours on the first floor of the pub, as these currently end 1 hour earlier than the opening hours of the downstairs section. It is this extension of opening hours I am objecting to

Thank you very much

Regards
