

Hi,

I'm a resident that lives on Ecclestone Place in Wembley. It has come to my attention that the Hiddo restaurant on Wembley Hill Road has applied for an alcohol and entertainment license which also includes extend hours.

I just wanted to make you aware of what the residents went through a few years ago when they opened late and what kind of clientel they attracted. You probably would know all this information already as I'm sure you would do a back round check on previous issues before making your decision.

I for one and I know my neighbours are against this application. I never slept for a year and a half when they had an entertainment license. The clientel where rude. Would disrupt my sleep, talk back to me rudely when I asked them nicely to keep the noise down. It was just constant disruptive behaviour. They would park on our road, drive up the road the wrong way, constantly back and forth to their cars, have loud music blaring out of their cars, talking and shouting to each other when they are standing next to each and they would also leave those silver canisters and litter on our road. It was a constant battle. Complaining to the council, reporting to the police their antisocial behaviour. It was horrible to actually live on this street.

Obviously you would have noticed that since their license was changed there hasn't been any complaints and I'm scared that if you grant them the license etc. The problem will start again.

The restaurant itself might say for their customers not to park on our road (Ecclestone Place) and park on a certain road etc. But will they listen? They didnt listen the last time. They didnt respect the residents at all. When arriving and leaving the premises. They made residents feel uncomfortable on their own street. People where scared to get into their cars and drive because they wouldnt let them pass them etc.

I'm sure you have had other residents sending emails regarding this. We just want you to think about this carefully as its our lives that will be made a misery! We have other issues that we have to deal with on this road as it's a rat run and such a small road off the main high road, parking issues, road not cleaned very well, parking wardens to come more often. Our road is the forgotten road even though we are liturally across from the stadium.

Thank you for your time.

Please can you confirm receipt of my email and let me know what the outcome of the application is please.
