**Subject:** Flamingindulge Objection

Hello this is flamingindulge unit 13, 26A abbey industrial estate. We have recently spoken on the phone and we have discussed the objection of us having a late licence. I see your main concern in the letter was customers being loud & customers throwing rubbish on the floor and you have also highlighted from what you have written that the "resident do not feel safe when they see customers waiting to collect their food and them eating the food outside their homes" these are issues which has been already been resolved with our business and Brent council. The business in the units have a agreement with Brent council that no customers are aloud to park outside the Woodside avenue & Woodside end area to eat food also when customer do come to pick up the food they have to park inside the black gate in side the industrial estate were V B & sons is away from the residence and will have to leave straight away when the food has been picked up. We monitor the rubbish every few hours to make sure the street is clean these concerns you have has already been discussed and resolved to also help the situation I'm happy to post a letter through the neighbours door giving them my personal number. If there is any issues or rubbish on the street. We are happy to comply with any suggestion you believe is necessary and I hope we can come up with some sort of arrangement to solve the situation.
