

[REDACTED]

Prevention of Public Nuisance This premises is an absolute nuisance. When I have messaged them in the night asking them to stop playing loud music they have responded with complete arrogance. We live the [REDACTED] of the park and the music has at times been so loud it has woken me up. They don't abide by the opening hours the licence allows them. We have witnessed customers drinking outside past 9pm we have also witnessed amplified music played outside after midnight. If they do not have their licence removed, I worry this will continue on forever.
