

They are a public nuisance- the music goes on till 3 am regularly. Not just at weekends. I repeatedly have raised this with the local councillors and also through the noise app and the noise team at Brent council. They are liars about the 11pm. They play loud music into the early hours that can be heard inside of my home and we are 1/2 mile away across the park. There is also a lot of shouting and people noise. In addition the cars park on pavements and generally the patrons have no respect for the surrounding residents. They breach the current licence (if they even have one) and will breach any extension. Not sure the local park lodge should be operating as a nightclub at all.
