The Event Operations Manager will act as Safeguarding Lead for this event.

Procedures for dealing with lost or found children and vulnerable adults:

Stay Calm:

If you are approached by a child who appears to be lost, or if you notice a lost child, stay calm and composed. Panicking can exacerbate the situation and make it more difficult to assist the child.

Assess the Situation:

Determine if the child is in immediate danger or distress. If so, prioritize their safety and well-being above all else.

Maintain Visual Contact:

If you have visual contact with the child's parent or guardian, maintain that contact while approaching the lost child. If not, stay with the child and ensure they are in a safe location.

Approach the Child:

Approach the child in a friendly and non-threatening manner, along with a colleague. Kneel down to their eye level to reduce intimidation. Ask them if they are lost and need help.

Reassure the Child:

Reassure the child that you are there to help and that everything will be okay. Avoid making any promises you cannot keep.

Identify the Child:

Ask the child for their name and the name of their parent or guardian. This information can be crucial in reuniting them with their family.

Contact Security or Event Staff:

Contact all radio holders immediately to inform them of the situation. Describe the child and their location accurately, but do not use any names over the radio.

Stay with the Child:

Do not leave the child alone. Ensure their safety and well-being. There should always be 2 security staff with the child.

Use Event Announcements:

If the event has a public announcement system, request that an announcement be made describing the lost child and asking their parent or guardian to come to a designated location.

Search for the Parent or Guardian:

If you can identify the parent or guardian through the child's information, attempt to locate them in the immediate vicinity. Do not move too far from where you found the child. After 5 minutes if the parents are not located the Control Room will instruct the child to be moved to the nearest of the 2 info points. Communications will be passed when this occurs to notify relevant persons.

Stay with the Child Until Reunited:

Continue to comfort and reassure the child while waiting for their parent or guardian to arrive. Avoid discussing details of the situation with the child, as it can cause unnecessary fear.

Reunite Child and Parent:

Once the parent or guardian arrives, verify their identity before reuniting them with the child. Ensure that the child is comfortable with the person claiming to be their parent or guardian.

Contact the Police:

If you are unable to locate the parent or guardian after a reasonable amount of time, contact local Police. Provide them with all the information you have about the child and the situation.

Document the Incident:

Make a written record of the incident, including the child's name, description, time, and location of the event, and details of how the situation was handled. This documentation may be required for legal or safety reasons.

Review and Improve Procedures:

After the incident is resolved, review the handling of the situation with event staff and security to identify any areas for improvement in your lost child protocol.

Asian Event Media has a robust system of dealing with reports of missing and found children and young person's – potentially the most vulnerable people at events; Asian Event Media also recognises vulnerable adults can equally be cause for concern, and even missing able bodied adults can cause much anguish to those who report them as missing. The same process can be used for any vulnerable person of any age.

On all occasions when a report is made of a missing person the Event Operations Manager will make an assessment as to the 'risk' to the missing person. If as a consequence of the risk assessment the Event Operations Manager decides that the report relates to a missing Vulnerable Adult or Child, staff should follow the procedures laid out in the Event Briefing.
