Subject: FW: CONSULT: 12 Day New Premises - Barham Park, HA9 - 32466

Dear Parks

NCT have engaged with the applicant and his chosen A&V company.

It has become evident that neither fully grasp what is actually required to assuage our concern. So, on that basis, we do remain concerned that should the event go ahead there is a strong likelihood that public nuisance from regulated entertainment will ensue. We therefore object to this event on that basis. We have already objected to the Premises Licence application.

Yours

Martin Wood
Principal Nuisance Control Officer
Community Safety and Prevention

Good morning Diane

It was good to catch up with you yesterday and get more of an understanding to our position and what is required from us, we do around 20 to 26 of these types of events every year and know each event is tailor made so no two types are exactly the same.

In this case we would set out at least 8 satellite monitors around the marquee and 4 short throw speakers around the dance area which would be obviously be a lot more work for us but the only way we can achieve the sound levels required. This way we have more control over the sound and where we want coverage.

The overspill outside the marquee will be constantly monitored by one of our team who will be there from start to finish and will be situated 1 meter from the nearest sensitive building or dwelling with a sound decibel noise meter which will not exceed 15db(A) at any point as we do not want to upset the neighbours or have any authorities come and complain about excessive noise levels.

A leaflet drop will be made to all the local residence with 3 mobile numbers just in case anyone wants to get in touch with any of the team, one would be my number, Jas and thirdly the organisers of the event.

Please let me know if you require anything else from me.

Kind regards

Karks Matharu
