Subject: Application No 33756 Applicant: Magic Sound Ltd

Dear Linda/Business Licence

I am objecting to Application no 33756 Applicant Magic Sound Ltd for the following reasons.

Public Nuisance

Public Safety

Crime and Disorder

Northwick Park is situated very close to houses, Northwick Park Hospital, The University and Bryon school.

There would be following effects on the residence, hospital, University and school.

Expected are up to 15000 visitors to this concert most of them will be between 15 to 25 year old. When walking from South Kenton Station, Northwick Park station and various bus stops to The Northwick Park festival /concert there would be lots of noise, nuisance, traffic congestion, litter everywhere on the surrounding streets. Alcohol and food will be sold all day which means cans and rubbish will be all over on the streets.

There will be a big issue regarding parking, visitors most definitely will also be travelling by cars. We have already a big issue regarding parked cars in Northwick Park and the concert visitors will worsen the situation by taking over resident parking spaces.

There is K.Pop group and recorded music will be played both are very loud and it would be disturbance to residence,Hospital patients, university students for 2-3 days on the weekend where people want have peace and relax.

It could endanger the safety and security of the residence by the public visitors, fans being around till late night in the surrounding areas and partying there after concert.

I strongly object to this concert license application and request licences should not to be granted and refused.

Kind Regards

Cllr.Narinder Singh Bajwa

Northwick Park Ward
