

Appendix 4 – Prudential Indicators

Legislative Update

In December 2021, CIPFA published its revised Prudential Code and Treasury Management Code of Practice following concerns around the commercial activity undertaken by several local authorities and the affordability of borrowing plans.

The Code required authorities to not borrow to invest primarily for financial return and all capital expenditure undertaken must be related to the functions of the authority. The Council has not undertaken any activities to invest for a yield or have any commercial plans within the capital programme.

The Code required the Prudential Indicators (which are approved as part of the Council's Treasury Management Strategy) to be reported quarterly (from semi-annually) as part of the financial updates and will be a recurring addition to the quarterly financial reports.

Prudential Indicators

The Council has a significant borrowing requirement and balance and is therefore exposed to financial risks including the loss of invested funds and the revenue effect of changing interest rates. The successful identification, monitoring and control of risk remains central to the Council's treasury management strategy.

Prudential indicators have been calculated using the capital programme data as at quarter two of 2024/25 (August 2024 Forecast) and a forecasted spend as at 31 March 2025.

(a) Capital Financing Requirement (CFR)

The underlying need to borrow for capital purposes is measured by the Capital Financing Requirement. This is the amount of the Capital Programme that is funded by borrowing. The Council's maximum external borrowing requirement for 2024/25 is shown in the table below. The indicator is set to ensure that the level of proposed capital expenditure remains within sustainable limits and to consider the impact on Council tax and in the case of the HRA, housing rent levels.

Closing CFR	1,236.6	1,398.2	1,584.8	1,660.2	1,690.0

External resources consist of grants and Developer contributions. Internal resources consist of use of reserves; capital receipts and revenue contributions.

(b) Gross Debt and the Capital Financing Requirement

To ensure that over the medium term, debt will only be for a capital purpose, the Council should ensure that debt does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and next two financial years. This is a key indicator of prudence. The table below shows that the Council expects to comply with this recommendation during 2024/25.

Gross Debt & the Capital Financing Requirement at Q2 2024/25 (£m)	2023/24	2024/25	2025/26	2026/27	2027/28
	Actual	Estimated	Estimated	Estimated	Estimated

Capital Financing Requirement	1,236.6	1,398.2	1,584.8	1,660.2	1,690.0

(c) Liability Benchmark

The liability benchmark is an important tool to help establish whether the Council is likely to be a long-term borrower or long-term investor in the future, and so shape its strategic focus and decision making. The liability benchmark itself represents an estimate of the cumulative amount of external borrowing the Council must hold to fund

its current capital and revenue plans while keeping treasury investments at the minimum level required to manage day-to-day cash flow.

Liability Benchmark at Q2 2024/25 (£m)	2023/24	2024/25	2025/26	2026/27	2027/28
	Actual	Estimated	Estimated	Estimated	Estimated

Liability Benchmark	786.1	947.8	1,134.4	1,209.7	1,239.6

(d) Authorised limit and Operational Boundary for External Debt

The Operational Boundary for External Debt is based on the Council's estimate of most likely i.e. prudent, but not worst-case scenario for external debt. It links directly to the Council's estimates of capital expenditure, the capital financing requirement and cash flow requirements and is a key management tool for in-year monitoring.

Other long-term liabilities comprise finance leases, Private Finance Initiative contracts and other liabilities that are not borrowing but form part of the Council's debt.

The Authorised Limit for External Debt is the affordable borrowing limit determined in compliance with the Local Government Act 2003. It is the maximum amount of debt that the Council can legally owe. The authorised limit provides headroom over and above the operational boundary for unusual cash movements.

Authorised Limit at Q2 2024/25 (£m)	2023/24	2024/25	2025/26	2026/27	2027/28
Authorised Limit	1,700.0	1,700.0	1,800.0	1,900.0	1,900.0
Operational Boundary	1,500.0	1,500.0	1,600.0	1,700.0	1,700.0

The Corporate Director for Finance and Resources confirms that there were no breaches to the Authorised Limit and the Operational Boundary during Quarter one of 2024/25.

(e) Upper Limits on one-year revenue impact of a 1% movement in interest rates

This indicator is set to control the Council's exposure to interest rate risk. The impact of a change in interest rates is calculated on the assumption that maturing loans in the current year will be replaced at current rates.

Upper Limits on one-year revenue impact of a 1% movement in interest rates on Maturing Debt at Q2 2024/25 (£m)	2024/25	2024/25

Compliance with limits:		Yes
Upper limit on one-year revenue impact of a 1% fall in interest rates	5.0	(0.8)
Compliance with limits:		Yes

(f) Maturity Structure of Fixed Rate Borrowing

This indicator is to limit large concentrations of fixed rate debt needing to be replaced at times of uncertainty over interest rates. The Council uses the option date as the maturity date for its LOBO loans. Loans based on existing debt portfolio as at the reported period.

Maturity Structure of Fixed Rate Borrowing at Q2 2024/25	Upper Limit	Lower limit	2024/25	2024/25	2024/25	2024/25	2024/25

(h) Upper Limit for Total Principal Sums invested over 364 Days

The purpose of this limit is to contain exposure to the possibility of loss that may arise as a result of the Council having to seek early repayment of the sums invested.

Upper Limit for Total Principal Sums invested over 364 Days at Q2 2024/25 (£m)	2023/24	2023/24	2024/25	2024/25

(i) Security

The Council has adopted a voluntary measure of its exposure to credit risk by monitoring the value-weighted average credit rating of its investment portfolio. This is calculated by applying a score to each investment (AAA=1, AA+=2, etc) and taking the arithmetic average, weighted by the size of each investment. Unrated investments are assigned a score based on their perceived risk.

(j) Liquidity

The Council has adopted a voluntary measure of its exposure to liquidity risk by monitoring the amount of cash available to meet unexpected payments within a rolling three-month period, without additional borrowing.
