

Since its opening, we have dealt with the daily aftermath—litter, disturbances, and large groups loitering in the early hours. I have attached photos from the past few days showing the state of the road each morning. Additionally, I have video evidence of groups congregating late at night, along with idling vehicles engaging in what appear to be illicit exchanges.

Beyond these disturbances, a critical question remains—**why does a shop selling desserts need to operate until 2:00 AM?** This is not a typical necessity for a dessert business.

Furthermore, this shop has been unlawfully selling hot food and drinks for months without a proper license. Instead of addressing these clear violations, it appears that the plan is to reward them by granting a premises license, effectively legitimizing their disruptive operations.

I strongly urge you to reconsider this decision and take into account the genuine concerns of residents who are directly affected by this issue.
