While it is wonderful to see a new eatery in Harlesden being very well supported, the nature of this business Viz. Take away service, has resulted in public nuisance in the form of strewn take out boxes, plastic bags and empty drinks containers along Harley road and even into Bramshill Open Space. By posting anti littering signs on their windows the business appears to show some awareness of this issue. Should this application prove successful, I would like to recommend that the business be responsible for regular litter picks on this stretch as it often leans from public nuisance to environmental hazard. Perhaps branded containers would also be helpful to indicate the success/failure of the suggested litter picks.
