Dear Brent Business License Team

In regards to the Lebanese Grill in Station Road NW10 4UU I object to their application for Late Night Refreshments License

The Lebanese Grill already operated without a Late Night Refreshment Licence, I doubt this was a honest mistake, rather just another greedy business that hope to operate as it please.

The business brought change in the area, a couple of good changes, like active frontage and more light in the evening on Station road, but several bad changes too.

The level of rubbish in all adjacent street is at all times high with white boxes and greasy napkins being thrown from car windows into our roads.

The smoke coming out of their exhaust pipe is unbearable. I believe it is too short, being below the rooftop level of the adjacent buildings the smoke remains trapped causing a big nuisance to all its neighbors. In summer we will be trapped indoor. As in other boroughs the duct height should be increase as to tower over the roofs and disperse. We do not need to be subjected to this amount of smoke for further 3 hours.

Glad that he went viral on TikTok but the pavement in front is impracticable between their terrace, the new commercial wheelie bin, the queue of people (6pm during Ramadan was a new high), their bikes, scooters, motorbikes in the pavement blocking access to pedestrians

Parking was already an issue in the area now is made worse from people stopping to consume their kebabs inside parked cars.

This also cause nuisances, being parked outside terraces, chatting from a car to another and listening to loud music, idling, slamming car doors. I can image the cul de sac of Honeywood road full of people sitting on the pavement consuming their kebabs this summer days and it's just not what the residents want

Best regards
