Subject: lebanese grill

i may be too late to include these photos to orohibit a late license but please see these photos from the past few days of the level of smoke and light pollution from lebanese grill. What these photos don't convey is the noxious smell of charcoal

from midday onwards.

12 april 21:00 (smoke and security light at full bore)

the photo below is 1st april at 06:00 am with the security light on a full brightness as the sun comes up having been on all night and illuminating the rear of our house ...

Today monday 21st april 18:36

today monday 21st april 18:45 with smoke literally filling the sky and atmosphere and
23:30 (the smoke stopped but the security light is beaming [REDACTED]

many. thanks
