

Other commitments mean it's looking unlikely that I will be able to attend the hearing. If possible please include the following addendum to my representation

At a recent (23rd April 2025) Late Night Refreshment hearing for an unrelated business, it was clear from submissions that the shop used packaging branded with the business name. This allowed residents to easily identify where littering was coming from and thus for the shop to improve their waste management and their customers' disposal of takeaway materials. Therefore if Lebanese Grill agrees to a condition that all their packaging\* is branded with the company name (and they will clear such litter from the surrounding neighbourhood), then I am satisfied to withdraw my representation. If not then I would request that the committee consider following the example of the 23 April decision and largely restrict late night licensing to a delivery only service with minimal in person purchasing at weekends only and reduced hours

Please note the shop continues to advertise opening hours until 2am without the necessary LNR licence <https://lebanesegrilltakeawaybox.co.uk/>

\* Branded packaging to include plastic bag, food tray and wooden forks etc. This type of takeaway packaging is readily commercially available
