Good afternoon Linda.

Police are still objecting to the sale of high strength lagers, beers and ciders.

Kind regards

Dear Ms Legister,

Thank you for the email and the details. I would like to confirm that I will be attending the hearing with the applicant and I will be speaking on behalf of the licensee.

After considering the representations we have received, we would like to amend the application as follows.

We No longer requesting to remove the conditions No.8 in relation to the sale of a single cans.

We are still requesting the amendment of condition No. 6

I believe, as per the representation made by the Licensing Enforcement team, they are happy with this change.

If you need any further clarifications, please do not hesitate to contact me.

Thank you

Best Regards,
