Subject: Tigerbay Kingsbury

Dear Brent Council,

I moved from Norway to London, and currently live in Colindale while studying. When I first arrived, I didn't know many people but Tigerbay quickly became a place where I felt safe, welcome, and part of something. It's more than just a venue to me it's a space that brings me peace and makes me feel at home in a new city.

I know the management personally both Prash and Uzi are incredibly welcoming and genuine people. They've made it clear that I can always reach out to them if I ever need anything or feel uncomfortable, which honestly, I never have. That kind of openness and community care says a lot about the way Tigerbay is run.

There's always a strong security presence at the venue. They're respectful and professional, and they help keep the environment safe and calm for everyone. It's very clear the management takes compliance seriously everything runs smoothly, and guests are treated with respect while still maintaining high standards for safety and order.

I'm aware of the recent stabbing incident, and I want to be very clear — that situation does not reflect Tigerbay at all. I've only ever experienced peace, warmth, and professionalism there. They shouldn't be judged by one incident that happened in the wider area.

Tigerbay plays a big role in the community. It's a multicultural space where people come together in a positive way, and it has truly made a difference in my life since moving to London. I hope the council will continue to support this venue and the positive impact it has.

Thank You,

F Abid - Fairbank house, Beaufort Square NW9 4FH
